AUTHENTIC ROLES

LEADER - STORYTELLER - EXPLAINER - TRANSMITTER

BASIC TYPOLOGY

64keys distinguishes between five basic types. For each type life unfolds in a different way, while each type has its very own strengths and weaknesses. The following description of the type you belong to mainly refers to the best possible way for you to unfold when cooperating with others.

"COORDINATOR"

CHARACTERISTIC

Being a Coordinator, my own energy supply is limited. I am not a workhorse capable of unfolding my life's energy at all times, nor am I compelled to do so. Instead, I possess the valuable talent of easily perceiving other people's life force and, based on this perception, coordinating it. This enables me to guide and direct others. I have, so to speak, built-in management and leadership qualities in terms of "sensible guidance". My Force Field is characterized by its unique capability to focus on and respond to other people. I am interested in the people around me and in how they use their energy and life force.

STRENGTHS

Owing to my well-developed sense of perception I am capable of realizing and seeing what other people need. I am very good at empathizing with others, which helps me detect whether or not they use their life force efficiently and to their satisfaction. I have a gift to see through even complex systems. When I use this intellectual quality with empathy, I am capable to fulfil leadership tasks very sensitively and become an exceptionally gifted Coordinator. In this case I should not strive to be an authoritarian leader, but a sensitive guide. Thus, my favourable management mode represents a modern and up-to-date form of leadership, for which I can get a lot of appreciation, too. As a matter of fact, appreciation and success are very important to me. I know what it takes to make cooperation successful. "I specialize in cooperation". And this calls for empathic Coordinators who know how to delegate on a large scale.

WEAKNESSES

My weakness is the tendency to share my perceptions without being asked to. The fact that I easily perceive other people's needs may not always be welcome, as others could feel exposed by me. I should therefore use my gifts defensively so as not to offend others. I need the support of other people, as they possess that continuous energy to act, which I do not always have at my disposal. For me, successful cooperation is the ultimate goal. When I try to act in an egocentric or authoritarian way, I may be met with rejection. And this kind of exclusion can make me feel bitter. Once I learn not to work with my own energy, but sensitively coordinate that of others, I will be on the road to success.

ADVICE

I am just not cut out to be busy all the time, but I am very skilled in perceiving things. My talents are outstanding in that respect, but will only unfold when I am not busily occupied myself. My ability to perceive other people and systems should be complemented by a solid education. This will help me safely find my way in the respective system. For me, it is essential to observe the quality of how the different life forces in my environment unfold. If I do not like what I see, that is to say, if I consider the energy to be uninviting, I am probably not in a suitable environment or system at that time. Given the right environment, however, I will be able to unfold my potential and bring in my very special talents.

SOME PROMINENT REPRESENTATIVES OF YOUR TYPE

Barack Obama, Angela Merkel, Marilyn Monroe, John F. Kennedy, Karl Marx, Kevin Spacey, Winston Churchill, Mark Zuckerberg, Bob Marley, George Clooney, Woody Allen, Leonardo Di Caprio, Lady Diana Spencer, Mick Jagger, Whoopi Goldberg, Kylie Minogue, Anna Netrebko, Barbara Streisand.

CENTERS / FUNCTIONS

There are nine centers in every Force Field. Each center has a certain function and can either be open (white) or defined (coloured). Mind you, open or defined does not mean better or worse. An open center has different potentials than a defined one, and of course for each potential there is also a shadow. The following analysis provides you with an overview of which of your centers are open (perceiving) and which are defined (impacting). Your opportunity for development lies in moving out of the shadow mode to fulfilling the potential. Depending on whether a center's colour is orange or blue, it is either unconsciously (orange) or consciously (blue) defined.

My INSPIRATION CENTER is OPEN

POTENTIAL

My open Inspiration Center has the potential to find out exactly which issues other people are mentally dealing with. When I am sensitive to the mental pressure of others, I am good at finding answers to their questions. In doing so I ought to distinguish whether or not those questions are relevant to me. If they are not, I can easily switch off and live without mental pressure.

SHADOW

My open Inspiration Center runs the risk of dealing with all questions arising in my environment, even if those questions have nothing to do with my own life. I sometimes experience huge mental pressure when others are searching for answers to questions. If I allow myself to be influenced by this too much, I may have a very hard time to relax and rest my mind.

My MIND CENTER is DEFINED

POTENTIAL

My defined Mind is perfectly suited for drafting concepts and formulating ideas. I know how to process information in a certain way and conceive new thoughts out of it. My Mind can be very inspiring to others, and my concepts can make an important contribution. I am most convincing when asked to express my ideas and concepts.

SHADOW

My defined Mind is designed to think and process information in a very particular way. If something does not fit into my pattern of thought, I can be perceived as being slow-witted. My way of thinking is rather definite. This is why my concepts and ideas may not always seem to match the current context.

My EXPRESSION CENTER is DEFINED

POTENTIAL

I specialize in a certain way of talking or putting things into action. I can be very sure of what I say or do and also know how to convince others. I find it easy to make myself heard and contribute to matters by way of communication, which will also have an impact on my environment.

SHADOW

My defined Expression Center can represent a limitation in terms of how I express myself and how I put things into practice. I may miss the current context, which in turn could cause others to misunderstand or render my actions and manifestations unsuitable in a given situation. I may also tend to interrupt others and take up too much space for my own expressions.

My IDENTITY CENTER is DEFINED

POTENTIAL

I can rely on my defined Identity to point out my direction. I know who I am, which direction matches my purpose and which people can accompany me along the way. I have this kind of self-confidence that can be appealing to others. I know how to follow my path and provide direction to others.

SHADOW

My defined Identity can make me become very inflexible when it comes to considering my way to be the only way and, in doing so, maybe steamroller other people. My identity is rather definite, and sometimes I have a hard time adapting to the context or to other people. My self-confidence may render me insensitive to grasping other people's nature.

My WILLPOWER CENTER is DEFINED**POTENTIAL**

Owing to my defined Willpower, I have a reliable source of power at my disposal for putting that which I want into practice. This kind of power may be in frequent demand and highly desirable when cooperating with others, as people recognize my ability to make an important and determined contribution to the development of the community. Thanks to my Willpower I can be endowed with authority and dominance.

SHADOW

My defined Willpower frequently refuses to acknowledge the contributions of others appropriately, as I want things to happen my way - the things I have willpower for. This may be aggravating for others, as they feel my ego dominance and maybe fight this dominance or refuse their support. I ought to stay sensitive to the needs of others so as to avoid the risk of having to do things all on my own.

My EMOTIONAL CENTER is OPEN**POTENTIAL**

Owing to my open Emotions I am capable of sensing other people's feelings very acutely. Due to this empathic capacity, no sensation and no emotion remain hidden to me. I can sense very clearly how other people feel and which emotions can affect them. Provided I understand that much of what I feel is strongly influenced by the feelings and emotions of those around me, I can utilize this sensitivity with great success, and not identify with the feelings of others.

SHADOW

My open Emotions make me very sensitive to the feelings of other people. If possible, I should try to avoid triggering negative emotions in others. This in turn could make me try to please everybody and maybe even seek harmony, when the smart thing to do would be to take a firm stand. Even if this meant risking a conflict. When I amplify the feelings of others, I can come across as being emotionally short-tempered.

My INTUITION CENTER is DEFINED**POTENTIAL**

My defined Intuition is a very good safeguard, as it helps me remain attentive and on the alert. I am able to anticipate developments and make very spontaneous decisions based on intuition. For me, it is important to consciously perceive and trust my intuitions and instincts. That way I am also able to convey a sense of wellbeing and security to other people.

SHADOW

Owing to my defined Intuition, I feel safe within my body - maybe sometimes too safe. As a result I can tend to overestimate myself, not seeing possible dangers or taking too great a risk. As I am able to convey a feeling of security and wellbeing to others, it may happen that other people become dependent on me and I have to take over more responsibility than I wanted to.

My LIFE FORCE CENTER is OPEN**POTENTIAL**

Owing to my open Life Force, I have the gift of being very efficient. I easily sense how others and I can utilize their life force in the best possible way. This is why I also have the ability to effectively coordinate or manage the work of others. I am good at adapting my creative powers to a given context and know how to develop short-term superhuman strength. As long as I notice in time when a break is needed, I find it easy to regenerate and relax.

SHADOW

As I have an open Life Force, I am not cut out for enduring strenuous efforts over a longer period of time. I can get exhausted and feel overburdened when taking up too much workload on a regular basis. For me it is vitally important to pause and regenerate. My life energy does not unfold evenly or at any time. The key understanding here is to listen to my own body and only do as much as I can without effort. Retreat and regeneration are my fountains of youth.

My DRIVE CENTER is OPEN**POTENTIAL**

My open Drive Center provides me with a high degree of equanimity. I am good at distinguishing whether or not something is worth acting upon. When I am put under external stress, I can be very fast and accomplish things quickly. Without such outside pressure, I remain unhurried and calm and find it easy to relax.

SHADOW

My open Drive Center can easily come under outside pressure. I am susceptible to getting stressed by others, which can lead me to do things very quickly - maybe too quickly. This may cause a lot of hustle and bustle in my environment. On the other hand, I sometimes feel unmotivated and lazy, which is not a shortcoming, however, but my relaxed and natural state.

SPECIALIZATIONS 1 - 4

The specializations of a Force Field are the talents that can manifest themselves at any time and represent your most important natural predispositions. 64keys distinguishes between 36 different specializations. Their combination allows us to draw very accurate conclusions about the ways you can unfold authentically.

LEADING - Leadership as a means of effectively expressing a strategic direction and role.

This specialization enables me to develop genuine leadership qualities. I know how to discern patterns and trends, how to use them to develop strategies and present them in a way that will put me in a position to influence the collective and lead them into the future. Here it is important to be nominated and authorized by the community to do so. This can happen in the form of a distinct mandate or by way of democratic elections. So it is not about developing an autocratic leadership style, but about putting the needs of the collective into the focus of attention. I may not always be the formal leader, but once I have mastered a subject, I will always be able to exert influence based on that. This can, for instance, also be the case should I be an artist. Basically, this is about my natural gift to lead the collective toward an assured future. It is not a matter of satisfying one's individual claim to power, but of putting this gift at the disposal of the collective in a serving way.

EXCHANGE - The interested and stimulating exchange of meaningful ideas and stories one has experienced.

This specialization enables me to use language in all its abundance. I am a wonderful storyteller. I am good at wrapping my experiences in life, but also the experiences of others, into stories and anecdotes, and I just love it when I gain the attention of my audience or trigger a response from them. That way, others can be highly stimulated by my ideas and experiences. I am always curious to know things and am forever in search of new ideas and answers. I am much more interested in this process of searching, than in finding the answers or the results. As it is, others frequently find my ideas more valuable than I do. These ideas are therefore less suited to solve my own problems, as the nature and result of this specialization always remains abstract and the answers that I give are not concrete and maybe not directly applicable. "The way is the goal" - that's what is really true of me.

STRUCTURING - The structured and clear expression of individual insights (from genius to freak).

This specialization allows me to express very individual thoughts and insights. This enables me to considerably change the way the world is perceived. It is not a matter of gradually improving or modifying things that exist, but of completely restructuring the way energy can be used more efficiently. The individual knowledge I share can cause quantum leaps. In organizations this capacity will help me contribute to attaining new levels of productivity and efficiency. However, my insights are not always welcome and sometimes cannot even be heard. My innovative insights develop best when I am asked to express them. Frequently, these insights pop up quite unexpectedly, even for me, and I may hear myself talking without even knowing where the things I say come from. I therefore can find it difficult to prepare for an interview or a speech. Because the moment I start talking, the things I say may be completely different to the ones I prepared.

INFLUENCE - The influence on the community based on adequate cooperation and skillful tactic.

This specialization enables me to use my instincts to sell or convey messages, products or my truth. It is my biggest gift to adapt my expressions to the target audience so that my messages can be understood and I can thus reach my goal. I am very quick in adjusting my position to suit the environment, which enables me to swiftly react to changing market conditions and demands. I have a keen sense of what works and who can be of value to a team at which position. It is the instinctive and creative art of doing business. And this is always a balancing act between manipulation and creating value for customers or buyers. Many people with this kind of specialization are businessmen and -women, filmmakers, journalists, advertising specialists or salespeople. Being effective is one of the qualities of this specialization. In other words, to optimize the rate between input and output in order to reach one's goals with perhaps a little less effort.

Further specializations can be formed when cooperating with others and depend on the person one interacts with. Which kind of specializations they are, can be explored in interaction analyses or team analyses.

The Living Matrix

FORCE FIELD ANALYSIS PART B

"LIGHT & SHADOW"

Whoopi Goldberg

The following pages include a detailed description of your most important potentials. In it, the meaning of each potential refers to the respective planet or celestial body through which it is activated.

Every activation can be expressed in its light mode or shadow mode. Whenever you leave the mode of effortlessness and calmness, you run the risk of living the shadow and, as a consequence, encounter resistance everywhere around.

Advancing one's personal development requires knowing about one's shadows and being aware of their influence.

MISSION IN LIFE

P-Sun

This activation is the most important one in your design. It shows your life's mission, that is, the vital center around which your life revolves. The essential point is to unfold, develop and fulfil this potential. It is the light that can make you shine. Here is where you can be a "star".

43.2

Insight

AREA: Mind / Q4

The individual insight that originates from the inner voice and determinedly establishes new orders.

Potential 43 is the mental gift to generate sudden individual insights. Also in the form of the proverbial "inner voices" and "dropped pennies". It has its very individual way of structuring knowledge. This potential is only interested in its own insights and frequently deaf to the explanations of others, as it must know things for itself. Here, insight happens impulsively, unpredictably. Suddenly it knows what there is to know. Until then the mind can also be focused on inner voices and sounds. Knowledge that is generated this way represents a very subjective and individual truth - freaky or ingenious.

ASPECT: Dedication

Unique insights through mental processes.

LIGHT

Unique mental habits that favour individual thought processes and promote the breakthrough of insights. >P<

SHADOW

The urge for expression tends to be careless, which can distort individual insights. >Mo<

GROUNDEDNESS

P-Earth

This activation indicates how your life's mission can take roots. It is the potential that will help you "prepare the ground" for your life's mission, that is to say, the aspect that makes you well-grounded and self-confident. One's life's mission and one's rootedness are the - frequently opposed – aspects which together form a whole.

23.2

Clarity

AREA: Expression / Q2

Clear expression of individual multiformity of awareness and understanding.

Potential 23 expresses individual knowledge. Whenever individual insights have to be communicated to others, one must do so very clearly in order to be heard and stand a chance of being understood. For individual knowledge can be ingenious, freaky and sometimes even incoherent by nature. These inner voices and insights must be translated and put into an appropriate context. Only then can other people understand and use them.

ASPECT: Self-defence

The defence of individual clarity.

LIGHT

The preservation of tolerance and, at the same time, the defense of individual expression when there is hostility.

>J<

SHADOW

Tolerance is abandoned when the individual expression is in danger. >Mo<

APPEARANCE

D-Sun

This activation represents your physical and unconscious aura. In other words the potential, which others perceive in you. You yourself may not even be aware of this aura. But there is nothing you need to do to unfold the potential. It is always there. It is the part of your genetic code that you inherited from your father.

4.4 ▲

Theses

AREA: Mind / Q3

Considering self-made theses and concepts to be valid despite the doubts that come with ignorance.

Potential 4 is about the ability to mentally create and process logical theses. It is also the imaginative power that strives to anticipate the future. Such ideas and theses must first be tested and verified. Sometimes those theses are sheer foolishness, but as long as they haven't been falsified, they are considered valid. If Potential 4 cannot grasp something, it will reject it. When all aspects of a mental concept have been appraised objectively, true understanding can evolve. The answers of Potential 4 can then lead to important changes in the world.

ASPECT: Role playing

Imaginative role play - elevated to an art form.

LIGHT

The potential to create imaginative ideas and credibly present them through appropriate behaviour. >S<

SHADOW

Fantasies are presented as facts, which will inevitably lead to humiliation when they are exposed as lies. >Sa<

PURPOSE

D-Earth

This activation indicates your purpose in life; what you represent to others in this life. You inevitably fulfil this purpose without being able to do or change anything about it. It is, so to speak, the unconscious reason of your incarnation – the connection to your inner self. It is the part of your genetic code that you inherited from your mother.

49.4

Principles

AREA: Emotion / Q1

The revolution based on the highest principles and not only started for the sake of power.

Potential 49 is emotional stability that is based on the adherence to principles. The rules of coexistence within a community are established here. Potential 49 requests obedience, and if someone does not accept the rules, they will be excluded from the community. It can either be very sensitive or insensitive to the needs of others, depending on whether or not they abide by the common principles. If the ruling powers violate the principles, here's the potential to start a revolution.

ASPECT: Justice

The sensitivity to the needs of society.

LIGHT

The sensitive potential to respond to the needs of the community, ensuring a just replacement of the old order.

>J<

SHADOW

Formulating the needs of the community only to ensure their support, which usually is nothing but an empty promise (political party program) >Ma<

ENVIRONMENT 1ST HALF OF LIFE

D-SN

This potential is always at your disposal starting from the moment of your birth. It shows how you connect with your environment and what will always be a matter of importance between you and others. This potential also describes the environment in which you move during the 1st half of your life, as it is the environment you respond to most, owing to this potential.

12.3

Appropriateness

AREA: Expression / Q2

The restraint that checks an expression for appropriateness before speaking or acting.

Potential 12 has the gift to appropriately articulate emotional moods. It wants to express its emotions properly, so that others will understand them, thus overcoming a standstill. This potential is largely driven by acoustic signals. It is about the way you say things, rather than what you say. Exercising caution and restraint towards society is necessary to release one's individual emotionality without hurting others or getting hurt. Depending on the mood, it either means withdrawal or open exchange.

ASPECT: Self-criticism

The ability for critical self-analysis.

LIGHT

One's own inadequacies are recognized and unjustified vanities can be purged through reflection. >N<

SHADOW

Inadequacies in social interaction are neither recognized nor reflected upon, which leads to rejection and thus to self-hatred. >Ma<

START OF 2. HALF OF LIFE: 21. Feb 1996

ENVIRONMENT 2ND HALF OF LIFE

D-NN

While the potential of the 1st half of your life is always at your disposal, you will have to work hard to acquire the potential of the 2nd half. This activation also specifies how and about what you will connect with others during the 2nd half of your life. As the activations of the 1st and the 2nd half of life are opposites, developing this potential is a time-consuming process.

11.3

Ideas

AREA: Mind / Q4

A state of harmony and peace as the basis for re-assessing the situation and forming new ideas.

Potential 11 is about mentally processing the meaning of experiences in order to develop new ideas. It loves being stimulated by ideas. These ideas need not become manifest, they are mostly meant to be exchanged with others. This potential works with the help of visual memories. It is about abstract ideas and possibilities, not logical facts. They are mental concepts (left eye), which are supposed to help find the meaning of an experience. As soon as one's confusion about the past has been resolved, a state of peacefulness will be restored and new ideas can develop.

ASPECT: Realism

The realization that peace and ideas are transitory.

LIGHT

The realistic recognition that peace is transitory and ideas come and go through the ages. >P<

SHADOW

The delusion that beauty and harmony are eternal and the ignoring of destabilizing changes. >V<

PERSPECTIVE 1ST HALF OF LIFE

P-SN

This activation indicates your view on the world during the 1st half of your life and the potential based on which you respond to it. This is a behaviour you were born with and which is always at your disposal. It can prove to be a valuable resource in stressful situations.

45.1

Accumulation

AREA: Expression / Q2

The natural center of the community that attracts favourable forces, collects resources and distributes them to everyone's benefit.

Potential 45 embodies the ability to gather material and immaterial possessions, however, not to further one's own ends but for the benefit of a community. This potential says: "We have". It is the archetype of the patriarch who leads his tribe autocratically for the collective good. And it is not only about material possessions, but also intangible values such as education and upbringing. Every successful community needs to have a principle of collecting and distributing. This potential is aware of this fact and draws its leadership quality from it.

ASPECT: Persuasion

Material direction through power of persuasion.

LIGHT

The power of persuasion to form a community and integrate people. Successful owing to education and upbringing.

>J<

SHADOW

The urge for material possessions that leads to proselytization and the energetic attempt to convince others.

>Ma<

START OF 2. HALF OF LIFE: 21. Feb 1996

PERSPECTIVE 2ND HALF OF LIFE

P-NN

This activation describes how you will perceive the world in the 2nd half of your life. As the activations of the 1st and 2nd half of life are opposites, the world changes on principle during the middle years of your life (midlife crisis). Yet, it is actually not the world itself that changes, but your view on it and thus the way you respond to the world. This potential needs to be developed first.

26.1

Tactic

AREA: Willpower / Q4

Targeted and tactical control of ego strength and memories, which can influence others.

Potential 26 is deliberate persuasive power and tactic. It aims at gaining maximum reward with minimum effort. The archetype of the salesman, who is able to close a deal as he knows the right tactic. The ability to trick and manipulate for one's own benefit or the benefit of the community serves to climb the hierarchical ladder and assume a position in which one no longer needs to work. This potential possesses an unusual ability to find shortcuts wherever it goes.

ASPECT: Contentedness

To be content with what has been achieved.

LIGHT

The ability to be content with what has been achieved and only transcend limitations through dreaming. >N<

SHADOW

The dissatisfaction that will not be content with what has been achieved and take foolhardy risks to achieve further progress. >Ma<

**DRIVE**

D-Moon

This activation indicates what drives you in life. It is the fuel that “powers” your doings and dealings. In other words, the reason why you get out of bed in the morning, but also the emotionalizing drive to spring into action. That is, in all its periodically recurring dimensions from modest to extreme.

56.5 ▲

Stimulation

AREA: Expression / Q2

The flexibility to follow one's curiosity and seek stimulation in short-term activities.

Potential 56 is about the expression of stimulating stories and ideas. It is the potential to seek and to travel. One loves to tell travellers stories that are emotionally stimulating, and travellers always have a lot of stories to tell in return. Here, it is not about facts, knowledge or proof, but about pictures, memories and ideas. To have control over language and its effect on the emotions of the audience is a very important issue. The more exciting and inspiring the story, the larger the audience. It also knows how to embellish and expand on its stories, and very often even far beyond the facts.

ASPECT: Attraction

Unusual stimulation attracts attention.

LIGHT

The ability to express unusual stimulations that lead to innovation and secure attention and support. >U<

SHADOW

Uncontrolled provocation and disturbance that can lead to rejection and opposition. >Ma<

**FOCUS**

P-Moon

This activation shows the focus that you never lose sight of. It reveals what you care about, what you see, what matters to you and what you always focus on in your actions and your thinking. For your personality it is an important principle of the mind to explore this aspect in all its extremes.

44.5

Collaboration

AREA: Intuition / Q3

The instinctive awareness that impartiality supports successful cooperation.

Potential 44 is the instinctive awareness for survival through collaboration. It has a nose for the right people for any cooperation. It operates out of an instinctive alertness that remembers successes and setbacks from the past. This consideration of the past is a mechanism for survival, which does not only protect the individual, but the community they belong to. It is capable of developing the structures for a healthy cooperation.

ASPECT: Organization

Organization - the instinctive recognition of patterns.

LIGHT

The ability to find the right place for others within the hierarchy, where they can develop and serve the community. >U<

SHADOW

To manipulatively suppress others and abuse their abilities. >Ma<

**COMMUNICATION**

D-Mercury

You do not only communicate with words, but also non-verbally. This potential indicates what you communicate without words and unconsciously by way of your aura and what others, maybe equally unconsciously, perceive in you. Last but not least, it describes the aspect that determines your way of listening. That which you will hear over and over again in this world.

59.4 ▽

Intimacy

AREA: Life Force / Q3

The vital force that overcomes resistance in order to effect intimacy and fruitful relationships.

Potential 59 is the vital force for intimacy, interaction, and fertility. It is the genetic imperative to reproduce and create something lasting, be it in the form of children or a product of fruitful processes. It is the potential that defines how we build up closeness and intimacy with other people. It is the vital force that tears down walls or slowly dismantles them, always aiming at creating closeness. It implies the need to enter relationships with others in various degrees of closeness. As it is not only limited to reproduction, this potential will prove relevant in all kinds of social interaction.

ASPECT: True friendship

The power for non-sexual closeness and intimacy.

LIGHT

The all-encompassing union with others based on the mutual trust and lack of design that characterizes friendships.

>V<

SHADOW

The urge to pursue one's intentions with a hidden agenda, which is detrimental to maintaining true friendship.

>Me<

**MESSAGE**

P-Mercury

This potential indicates what occupies your mind, how you deal with sensations and about what you – consequently – like to talk about. It is, so to speak, your message to the world and describes the aspect on which you could become an authority to others.

44.2

Collaboration

AREA: Intuition / Q3

The instinctive awareness that impartiality supports successful cooperation.

Potential 44 is the instinctive awareness for survival through collaboration. It has a nose for the right people for any cooperation. It operates out of an instinctive alertness that remembers successes and setbacks from the past. This consideration of the past is a mechanism for survival, which does not only protect the individual, but the community they belong to. It is capable of developing the structures for a healthy cooperation.

ASPECT: Management

The purposeful development of collective structures.

LIGHT

The instinct to establish and organize a common structure which will help achieve the set goals. >J<

SHADOW

The focus on objectives is so strong that one tends to ignore people, which leads to quantitative success and qualitative failure. >Ma<

♀

MORAL

D-Venus

This activation relates to the aspect of your design that governs the moral dimensions of relationships. It is also about innocent physical sensuousness and the pleasure you get in and out of relationships as well as the way you form and shape relationships.

7.6 ▽

Strategy

AREA: Identity / Q3

Strategically arranging the roles within society in order to cope with the future.

Potential 7 stands for strategically planning the future. It is thus an important component of leadership. It is about knowing which direction to take so as to reach one's goal. To be authorized by the collective is always mandatory for leadership. Only then can one assume a leader's role - from the empathic guide to the authoritarian dictator, depending on the situation. The potential is to develop foresighted strategies.

ASPECT: Administration

Administration through the responsible apportioning of power.

LIGHT

The ability to share power adequately and transfer responsibilities to others for the greater good. >Me<

SHADOW

The bureaucrat whose lust for power hardens hierarchical structures, destabilizes the system or turns it rigid. >U<

♀

VALUES

P-Venus

Potential 43 is the mental gift to generate sudden individual insights. Also in the form of the proverbial "inner voices" and "dropped pennies". It has its very individual way of structuring knowledge. This potential is only interested in its own insights and frequently deaf to the explanations of others, as it must know things for itself. Here, insight happens impulsively, unpredictably. Suddenly it knows what there is to know. Until then the mind can also be focused on inner voices and sounds. Knowledge that is generated this way represents a very subjective and individual truth - freaky or ingenious.

FORCE FIELD ANALYSIS PART C
"PSYCHOLOGY & HEALTH"

Whoopi Goldberg

A core aspect of your energetic system is the „colors“ underneath the surface.

The following pages provide you with an overview of – which motivation moves you, - your perception of the world, - which diet and nutrition-related behaviour, - which sense of perception and – which environment are beneficial to your health and – which Cognitive Type you are.

MOTIVATION *)

Before an actor or an actress starts acting, they need to know "why" they do what they do in a certain scene. In other words, they try to get to the bottom of what motivates a character to act in a particular way. Likewise, you were born with a certain basic motivation, which "colours" your behaviour and allows a better understanding of why your potentials and talents unfold the way they do. A person with the same predispositions, but a different motivation, would behave in a different manner.

"Guilt"

The urge to judge in order to find out what is to blame and bring about change through practical solutions.

It is my basic motivation to find out what is to blame when things don't run as smoothly as they should and how to improve things or steer them towards a new direction. This has a considerable effect on my environment, as people expect my ability to judge to lead to constructive solutions. However, I can only contribute in this way, if I'm ready to assume responsibility and therefore potentially take a part of the blame. For whenever something is done effectively, transforming the "old" into something "new" and improved, it can be to some people's disadvantage. The question of guilt will always play a part in my life, in all its aspects. Because "you can't make an omelette without breaking eggs". And no one knows better than me.

*)This part of the analysis is only reliable when there is an exact birthtime (max ± 5 Min).

PERSPECTIVE

Imagine different people observing a situation or an event. Even though every one of them sees one and the same thing, each viewer will perceive and describe different aspects of what has been seen. This aspect of the Force Field Analysis looks at your perception of things and of the world as such.

"Political"

The political spirit that knows how to identify power structures and chances in its environment and use them for its own ends.

My perception is shaped by the fact that I am very good at sensing and seeing through connections and relationships at life's material level. This view is a good basis for me to be successful myself and find my way within political or any other kind of power structures. I see who is powerful, who is successful and which relationships and structures are necessary to achieve outstanding success at a material level. This perception provides me with a keen sense of different social environments and enables me to see what could possibly be changed and developed. Based on this perception I know how to identify chances of my own and use them to my advantage, or to actively change or shape my environment.

HEALTH AND NUTRITION *)

The beneficial diet and nutrition-related behaviour describe what and how your body digests most effectively, and the best way for your body to absorb the substances in your food that it needs most. So on the one hand, this is about what you eat and drink and, on the other hand, about the atmosphere that is beneficial to you when you do it. If you keep this in mind, you will feel more vital, efficient, healthier, and find it easier to keep or achieve your ideal body weight. Also, there is mention of your most important sense of perception when it comes to selecting the food that is beneficial to you.

Light - indirect - "Nocturnal Eater" / Sensory Perception: Feeling

The "Nocturnal Eater": Has a modern digestive system and can digest a lot. However: He or she is very sensitive to light and needs darkness to facilitate digestion. As a consequence, this type needs to pay attention to when they eat, rather than what they eat. They should eat their food in dark rooms or after sunset. The body cannot digest when directly exposed to sunlight. Only during the quiet and calm of night will digestion be possible. Hence, the main meal of the day is the evening meal. The most important physical sense is the sense of emotional perception. Food should create a feeling of well-being and not blur the act of sensitive emotional perception. In this type awareness is created after they have experienced and felt something. This type attaches great importance to how food "feels", which energies it possesses. This type has a flexible immune system. By giving the body time to fully process experiences, the immune system will be able to learn.

*)This part of the analysis is only reliable when there is an exact birthtime (max ± 5 Min).

BENEFICIAL ENVIRONMENT

The beneficial environment describes the setting in which you can best unfold your talents and potentials. This is essentially about the character of a room or a landscape – what you see and which feelings or stimulations the environment provides. At the same time the beneficial environment characterizes the way you should make contact with other people.

Production / Action - cool/dry

The environment most beneficial to developing your talents is shaped by productive activity. It is a place where things are designed, processed or assembled. In this case, it is rather a matter of cool or dry environment which allows you to remain physically passive. It is also a kind of processing that needs the input of mental energy as well.

COGNITION TYPE *)

The Cognition Type describes the way one processes information and the activity mode in which one's life unfolds. The attached "animal name" is only supposed to convey an archetypical image and help differentiate whether a Cognitive Type tends to be survival-minded (predator) or experience-minded (resource animal).

RRRR, ""Alf"" No-mindedness - Flow

I am in a passive flow with experiences and the environment, and am very receptive to everything that's happening around. Without firm intentions or plans my life unfolds with ease, if I can simply live in the Now, without pressure. I am a valuable resource for other people, as the depth of awareness created by my experiences has a transforming effect on others.

MIND AND APPROACH *)

I have a receptive mind that is present in the Now, observing and absorbing everything around me without specific intention. Within this undirected and unfocussed presence in the Now, I deeply absorb my environment, amassing a huge amount of knowledge along the way. This can make me a very valuable resource to others who do not have an equally keen and all-encompassing sense of perception.

ACTIVITY MODE und RELATIONSHIP MODE

I live life in a passive flow with my experiences and my environment, relaxed and without the pressure to survive. To me, life cannot be planned in advance, but represents a series of experiences. I am acutely present in the Now and let other people approach me. I love to deal with the topics arising in my environment.

*)This part of the analysis is only reliable when there is an exact birthtime (max ±5 Min).

Implementation (1), Planning (7), Commitment (29), Structure (31)

APPEARANCE

A person's appearance describes the characteristic trait that can be perceived by others and which results from unfolding one's personality authentically.

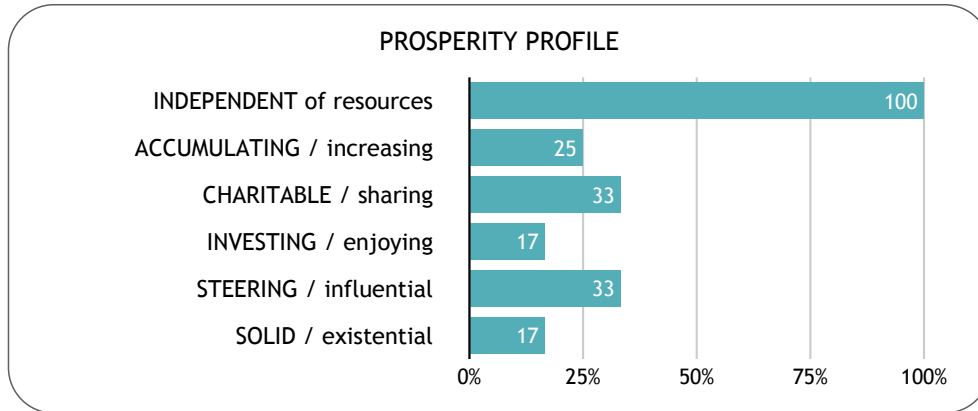

LEGEND

- EXEMPLARY / visionary** People who have this kind of charisma are authentic as they simply "do their thing", living up to their individuality. This may have an exemplary or even visionary effect on others.
- MOTIVATING / wise** This charisma is based on the wisdom of what is virtually feasible and the ability to motivate others to follow a promising path.
- EMPATHIC / open-hearted** This charisma will open the door to others. To approach one's neighbour with an open heart, perceiving and responding to their needs.
- EXPERIENCED / humorous** This charisma is always connected to a certain humorous way of "being above things". Because only those will fail, who do not get up after falling down.

Each person has their individual mode of how to master the material plane. This chart shows you how the different prosperity modes are defined in your life and how you can personally tap into the power of the material "flow".

DEVELOPMENT SEQUENCE

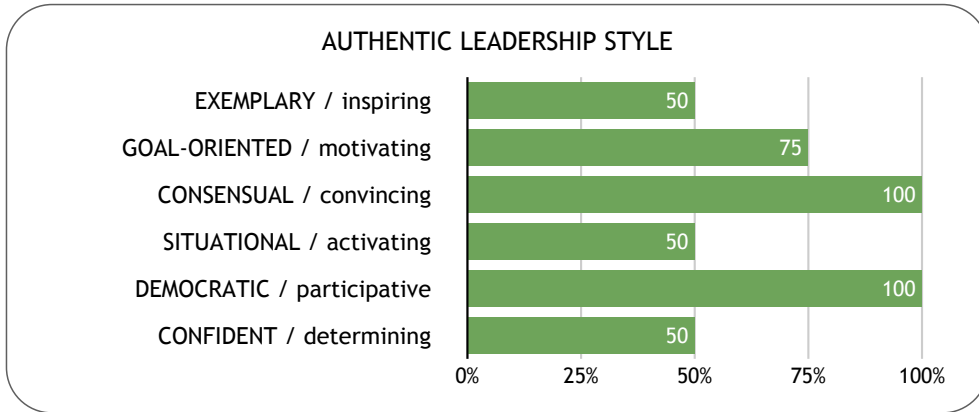

Talent	4.5	Dissemination
Cooperation	7.1	Autonomous
Appearance	43.2	Passionate
Prosperity	29.6	Independent

LEGEND

- INDEPENDENT** A master in the art of living likes to be free of material attachments. In this case "being in the flow" and "living from hand to mouth" is equivalent to material prosperity. Here, the focus is not on the accumulation of reserves, but on the basic principle of life to have exactly what is needed at any given moment.
- ACCUMULATION** Here, prosperity means gathering resources and building reserves. It will help one sleep better. These resources also lead to influence because others know about them. The rate between accumulating resources and spending them should be well balanced in order to avoid the danger of becoming closefisted.
- CHARITY** In this case prosperity is created through generously sharing with people who have less than oneself. Sharing for charitable reasons will make sure that resources keep being replenished. A strong social streak is useful to see who actually needs and deserves to receive one's resources.
- INVESTMENT** It is conducive to prosperity when the available resources are wisely invested. This may also go beyond personal means (e.g. in the form of loans). In this mode one can also generate income through skilful investments and a certain readiness to assume risks, while at the same time heartily enjoying one's life.
- STEERING** Here prosperity is created by steering resources that are not one's own. And yet, this is also the way to meet one's own material needs. It is not about having large personal resources, but about having an influence on how other people use theirs.
- SOLIDITY** Prosperity is created if one's material existence is secured and well established, if there are reserves available, if there is a good overview of income and expenditure, and no major risks are being taken. In this mode, one will rest easier if there are only few liabilities and one only spends what one has earned.

LEADERSHIP STYLE

Nobody can lead like you do! This chart displays your authentic behaviour in management and the leadership style that will make others follow and trust you. This leadership style does not only refer to an active role, but also applies to the way you would like to be led yourself.

MISSION

Every person is born with a certain mission, a certain "cross". In a manner of speaking, every human being has to carry their individual "cross". 64keys distinguishes between 768 crosses. The following text is an attempt to briefly outline your personal task.

The personal Cross of Explanation (4)

This mission is about establishing revolutionary new orders based on explaining my individual insights which have their source in my inner voice. Owing to my capability of efficient thinking and my imagination for shaping the future I can change collective principles and rules through patient and precise communication. For me, it is important to defend my individual expression so as to devote myself to my unique mental processes and help my insights get accepted. In doing so, I must be careful not to jump the gun. Based on a strong sensitiveness to the collective needs and a keen sense of justice, I know how to formulate new principles that will replace old orders. I have the potential to propose inspired theses and, with a talent for acting, lend them plausibility to secure their influence. Based on this mission, I am able to destroy outdated principles and rules in my environment through my inner knowledge and my talent for explanations and lay the foundation for new orders.

PROFILE

While the life's mission describes your role in life, the mode represents your approach. Your profile (64keys distinguishes between 12 different profiles) also stands for the way your social life unfolds and the manner in which you approach the tasks in your life.

2/4 Selective Networker "DIVA"

NOTE TO THIS ANALYSIS

The results of this Force Field Analysis are based exclusively on your birth data. For some parts of the analyses the precise time of birth is relevant and necessary. Should the time of birth used differ from the actual time of birth by more than 5-10 minutes, not all parts of the analysis are 100% reliable.

Of course, this report cannot replace personal analysis and counselling, as many nuances have to be examined with a view to all of the multifaceted levels of information. We hope that these pages will be useful for you. We look forward to addressing them in more detail, should you decide for a personal consultation.
