AUTHENTIC ROLES

CONCENTRATOR - ORGANIZER - MOTIVATOR

BASIC TYPOLOGY

64keys distinguishes between five basic types. For each type life unfolds in a different way, while each type has its very own strengths and weaknesses. The following description of the type you belong to mainly refers to the best possible way for you to unfold when cooperating with others.

"BUILDER"

CHARACTERISTIC

As a Builder, I have endless life force energy at my disposal. For me, it is part of unfolding my life to be busy and utilize my life force, no matter whether for work or recreational activities. My life's energy needs some kind of occupation; it wants to be used. I can find it challenging to remain inactive for a longer period of time and, in fact, it is not good for my health either. A Builder's Force Field is open to cooperation, interaction and communication with others.

STRENGTHS

The biggest strength of a Builder is the fact that they have constantly available life force energy. Here, it is essential to understand that life and thus life's energy always unfold as a response to the environment. Much like a plant's life force responds to light and other kinds of environmental conditions, my life force reacts, too, and thereby knows exactly whether or not my energy wants to be spent on a certain demand or issue. In other words, highly intelligent answers to all possible questions are already built into my body. Once I learn how to follow my life force and listen to what I am actually ready to use my energy for, my life will unfold with ease and to my utmost satisfaction.

WEAKNESSES

Life force wants to be used, to be transformed. My life force does not want to sit around doing nothing. Still, there is not always a satisfying opportunity for it to be used. For that reason, I can tend to apply my life force somewhat unselectively. Maybe I spend my time doing things that do not satisfy me at all. Maybe I allow myself to be lured into doing things or be ordered to do things I don't like that prevent my specialized generating powers from unfolding properly. It is one of my biggest weaknesses to dedicate my life force to activities I am not satisfied with. Be it for reasons of social pressure or the belief that I have to prove something to someone.

ADVICE

For me, it is ideal to listen to my life force attentively. I want to be asked. I want to be invited. I should only invest my energy, if I really feel disposed to do or realize that very thing I'm being asked for. Whenever possible, I should avoid making decisions in my head, because the energy has to act out of my body. The mind is simply a valuable resource that makes my actions intelligent and efficient. But the mind does not supply energy, and therefore should not be the most important decision-making authority. I know that it is not good for me to initiate things or make too many plans. I should be open to respond to life at any time. It is this kind of response that reveals the real treasure of my body's intelligence. Whenever I feel powerless and exhausted, I know that in this moment I am devoting my energy to something that is not suitable for me. I am, so to speak, abusing my life force, which then refuses to serve.

CENTERS / FUNCTIONS

There are nine centers in every Force Field. Each center has a certain function and can either be open (white) or defined (coloured). Mind you, open or defined does not mean better or worse. An open center has different potentials than a defined one, and of course for each potential there is also a shadow. The following analysis provides you with an overview of which of your centers are open (perceiving) and which are defined (impacting). Your opportunity for development lies in moving out of the shadow mode to fulfilling the potential. Depending on whether a center's colour is orange or blue, it is either unconsciously (orange) or consciously (blue) defined.

My INSPIRATION CENTER is OPEN

POTENTIAL

My open Inspiration Center has the potential to find out exactly which issues other people are mentally dealing with. When I am sensitive to the mental pressure of others, I am good at finding answers to their questions. In doing so I ought to distinguish whether or not those questions are relevant to me. If they are not, I can easily switch off and live without mental pressure.

SHADOW

My open Inspiration Center runs the risk of dealing with all questions arising in my environment, even if those questions have nothing to do with my own life. I sometimes experience huge mental pressure when others are searching for answers to questions. If I allow myself to be influenced by this too much, I may have a very hard time to relax and rest my mind.

My MIND CENTER is DEFINED

POTENTIAL

My defined Mind is perfectly suited for drafting concepts and formulating ideas. I know how to process information in a certain way and conceive new thoughts out of it. My Mind can be very inspiring to others, and my concepts can make an important contribution. I am most convincing when asked to express my ideas and concepts.

SHADOW

My defined Mind is designed to think and process information in a very particular way. If something does not fit into my pattern of thought, I can be perceived as being slow-witted. My way of thinking is rather definite. This is why my concepts and ideas may not always seem to match the current context.

My EXPRESSION CENTER is DEFINED

POTENTIAL

I specialize in a certain way of talking or putting things into action. I can be very sure of what I say or do and also know how to convince others. I find it easy to make myself heard and contribute to matters by way of communication, which will also have an impact on my environment.

SHADOW

My defined Expression Center can represent a limitation in terms of how I express myself and how I put things into practice. I may miss the current context, which in turn could cause others to misunderstand or render my actions and manifestations unsuitable in a given situation. I may also tend to interrupt others and take up too much space for my own expressions.

My IDENTITY CENTER is OPEN

POTENTIAL

Owing to my open Identity Center I am acutely aware of the direction other people are taking and who or what they identify themselves with. I am very sensitive to places and good at perceiving whether or not a place or an environment is consistent with what I need or will help me unfold my nature. I consider many things possible, and I know how to adjust my path to a given context and environment.

SHADOW

My open Identity Center can cause me to feel lost in the world. There are times when I am uncertain of who I am and which direction in life to take. Then I can tend to attach myself to others too quickly, always thinking that other people know better which way to go. I am always in search of love, too, as I believe this will strengthen my identity or help me know who I am.

My WILLPOWER CENTER is OPEN**POTENTIAL**

Owing to my open Willpower I know when it is worth the effort to use my willpower, depending on the situation. I am also good at perceiving what people around me need. I know how to question other people's willpower and am open to collaborate with others, if it matches my situational needs and will be beneficial to the development of the community.

SHADOW

My open Willpower reduces my self-esteem. I therefore tend to believe that I have to prove my worth and demonstrate willpower. In the long run this could damage my health, as I do not have perpetual willpower available. As to material needs, I do not always succeed in gathering the necessary resources. I have a casual way to deal with supplies and may risk wasting the resources I might need at a later stage.

My EMOTIONAL CENTER is DEFINED**POTENTIAL**

My defined Emotions support me in processing various states of emotion and feelings. As a matter of fact, I always experience very different emotional moods and states. This helps me grasp the many aspects of an emotional experience and allows me to make very clear and detached decisions. On account of my strong feelings, others are likely to be attracted to me, influenced by the emotional waves I bring with me.

SHADOW

My defined Emotions never stop producing emotional states. This is why I may long for emotional stability and seek it in the outside world. At the same time I will search for a reason for my emotional state and I am quick to make other people responsible for it, whom I can then reproach. Once I postpone decisions until I have reached emotional clarity, I can avoid unfavourable decisions and have enriching experiences.

My INTUITION CENTER is OPEN**POTENTIAL**

My open Intuition excels at sensing what will convey safety and well-being. I am very good at observing whether or not others are in good health or feeling well. This means that, at a physical level, I have a strong empathic sense of certain situations, environments and other people. My open Intuition provides me with highly sensitive powers of perception that help me find the capacities and the people that are likely to secure my own survival.

SHADOW

My open Intuition Center can sometimes cause me to feel unsure and unwell in my own body. I therefore tend to seek the protection of others and relinquish my independence. The fear of being abandoned or being alone can lead me to cling to situations and relationships for a longer time than is healthy or beneficial for me. I may also have a hard time making spontaneous decisions.

My LIFE FORCE CENTER is DEFINED**POTENTIAL**

Owing to my defined Life Force, I seem to have sheer infinite productive capacity and creative powers. I have the energy to put things into practice while at the same time cooperating with others in an open manner. Once I get a physical response to something, my Life Force will unfold quite effortlessly and provide me with a high degree of satisfaction.

SHADOW

As I possess sufficient energy, I could tend to waste that vital force and sometimes act with a lack of efficiency. I can be quick to use my vital energy on activities in which I do not find satisfaction. It is important for me to say No, if I am not in the mood for doing something, or had to do something on terms that are not to my liking. Otherwise I could become very frustrated and demotivated.

My DRIVE CENTER is DEFINED**POTENTIAL**

My defined Drive Center helps me resist stress and provocation from the outside to a large extent. I prefer to work in my own pace, and I know how to keep calm even in very hectic environments. My Drive can also be persistent and ambitious and - in my own speed - keeps bringing me closer to my goals.

SHADOW

When I feel the urge to do something, owing to my defined Drive Center, I can easily pressure others to adjust to my speed. This is not necessarily a high speed, and I could also get on other people's nerves by acting slowly and unhurriedly, just because it is the right pace for me at that time. On the other hand, I am prone to putting myself under considerable existential pressure that will lead to inner restlessness and nervousness.

SPECIALIZATIONS 1 - 3

The specializations of a Force Field are the talents that can manifest themselves at any time and represent your most important natural predispositions. 64keys distinguishes between 36 different specializations. Their combination allows us to draw very accurate conclusions about the ways you can unfold authentically.

CONCENTRATION - A stable and determined energy that arises from quietude to focus on the details.

This specialization enables me to fully focus on what I do and wholeheartedly devote all my talents to a given process. I do not like to be distracted or forced to do several things at once. It is important for me to have times in which I can concentrate on my work without being disturbed. Only then can I consider all the details and contribute essential improvements in every respect. My charisma will help others reach a similar state of focussed attention that can serve as the basis for collective improvement.

CONCEPTION - Establishing precise and foresighted concepts that show the logical way into the future (organizational talent).

Endowed with this kind of specialization, I need a lot of information before I can speak. The opinions I voice have to be backed up by facts and details. Other people are usually impressed by my detailed knowledge. However, when speaking out of turn, I can easily bore others with seemingly unnecessary details. This specialization is closely connected to the right eye. This eye is meant to discern logical patterns and focus on the details. I am a very visually oriented person. Pictures and graphical representation are important for me. Very often I can say more in a sketch than with words. I have the qualities of a "logical think tank". I excel at organizing others and leading them with foresight towards the future. My management qualities and organizational talent are based on my ability to grasp all details of a structure and detect possible flaws and deviations. Such qualities are in great demand in any enterprise or organization and are as such very welcome.

DESIRE - The hopeful urge and longing for new emotional experiences (desire).

This specialization provides me with a strong drive to make new emotional experiences. I have dreams and visions that are not always intended to become reality. Owing to these dreams and desires other people may see me as insatiable and feel put under pressure, causing them to get restless or nervous. Not every desire is made to last, though. I will always benefit from waiting for emotional clarity as far as my emotional wishes are concerned. For me, patience is a challenge and learning lesson. Not everything that I want here and now will still be of importance tomorrow. It is therefore advisable for me not to make emotional decisions on the spur of the moment, but wait for the wave of emotions to complete before confronting others with my enthusiasm.

Further specializations can be formed when cooperating with others and depend on the person one interacts with. Which kind of specializations they are, can be explored in interaction analyses or team analyses.

The Living Matrix

FORCE FIELD ANALYSIS PART B

"LIGHT & SHADOW"

Steve Jobs

The following pages include a detailed description of your most important potentials. In it, the meaning of each potential refers to the respective planet or celestial body through which it is activated.

Every activation can be expressed in its light mode or shadow mode. Whenever you leave the mode of effortlessness and calmness, you run the risk of living the shadow and, as a consequence, encounter resistance everywhere around.

Advancing one's personal development requires knowing about one's shadows and being aware of their influence.

MISSION IN LIFE

P-Sun

This activation is the most important one in your design. It shows your life's mission, that is, the vital center around which your life revolves. The essential point is to unfold, develop and fulfil this potential. It is the light that can make you shine. Here is where you can be a "star".

55.6

Abundance

AREA: Emotion / Q1

The emotional awareness that abundance is a product of individual spirit.

Potential 55 is about emotional abundance and mind-set. It is the "Spirit", which can be deeply melancholic, musical, or romantic. It regulates emotional heights and depths. It will always search for the perfect emotional state, be it peace, love, or ecstasy. It is waiting to be emotionally provoked in order to find out how it feels at a given moment. When the emotional wave is at its peak, it feels splendid and full; at its trough it feels melancholic and empty. It is deeply acoustic and is very sensitive to the tone in which things are said. The potential is to be emotionally aware of the fact that material abundance is always a question of mindset.

ASPECT: Individual responsibility

Material wealth and individual spirit are dependent on each other.

LIGHT

The emotional awareness that material abundance and individual spirit are interdependent. Finding the spirit through materialism. >Sa<

SHADOW

The self-interested spirit that makes materialism become obsessive and refuses to let others share the wealth.
>Mo<

GROUNDEDNESS

P-Earth

This activation indicates how your life's mission can take roots. It is the potential that will help you "prepare the ground" for your life's mission, that is to say, the aspect that makes you well-grounded and self-confident. One's life's mission and one's rootedness are the - frequently opposed – aspects which together form a whole.

59.6

Intimacy

AREA: Life Force / Q3

The vital force that overcomes resistance in order to effect intimacy and fruitful relationships.

Potential 59 is the vital force for intimacy, interaction, and fertility. It is the genetic imperative to reproduce and create something lasting, be it in the form of children or a product of fruitful processes. It is the potential that defines how we build up closeness and intimacy with other people. It is the vital force that tears down walls or slowly dismantles them, always aiming at creating closeness. It implies the need to enter relationships with others in various degrees of closeness. As it is not only limited to reproduction, this potential will prove relevant in all kinds of social interaction.

ASPECT: Union

The power of intimacy regardless of conditions.

LIGHT

The vitality to seek and maintain perfected relationships between soul mates, be it for a moment or for eternity.
>V<

SHADOW

The drive for diversity is so strong that one can only enter into temporary relationships (one-night stand). >Me<

APPEARANCE

D-Sun

This activation represents your physical and unconscious aura. In other words the potential, which others perceive in you. You yourself may not even be aware of this aura. But there is nothing you need to do to unfold the potential. It is always there. It is the part of your genetic code that you inherited from your father.

9.3 ▽

Focussing

AREA: Life Force / Q4

The energy to focus and consider all aspects in detail.

Potential 9 provides the energy to focus on the details. It is the ability to concentrate, which is essential for the entire logical process of experimenting, reviewing, repeating, practising, and perfecting. Even the longest journey begins with a single step. It is where you put your focus and which details you pay attention to that greatly influences the journey's path. This potential is either overwhelmed or distracted by the details, or it makes use of its focus on the details to reach the goal.

ASPECT: Details

Avoid failure through focusing on details.

The necessary energy is supplied by the enthusiasm to fully identify with a cause and focus on it.

ASPECT: Independence

ENVIRONMENT 1ST HALF OF LIFE

D-SN

This potential is always at your disposal starting from the moment of your birth. It shows how you connect with your environment and what will always be a matter of importance between you and others. This potential also describes the environment in which you move during the 1st half of your life, as it is the environment you respond to most, owing to this potential.

52.2

Stillness

AREA: Drive / Q2

Temporary self-imposed inactivity in order to calmly reassess matters.

Potential 52 is what makes a person find stability and stillness in inactivity. It is the basis for the ability to focus, which allows one to concentrate on ONE thing by keeping still. It is a pressure that is self-imposed or forced upon from the outside, which enables one to re-assess matters and allow energies to calm down. It is the passive strain to find the right subject to focus on. Here, energy will come to rest and become the basis to understand and verify logical processes.

ASPECT: Consideration

To pause out of consideration.

LIGHT

The consideration to pause for the benefit of others and to let one's own energy come to rest. >V<

SHADOW

The egoistic and sudden pause at the expense of others that may endanger them. >Ma<

START OF 2. HALF OF LIFE: 14. Feb 1994

ENVIRONMENT 2ND HALF OF LIFE

D-NN

While the potential of the 1st half of your life is always at your disposal, you will have to work hard to acquire the potential of the 2nd half. This activation also specifies how and about what you will connect with others during the 2nd half of your life. As the activations of the 1st and the 2nd half of life are opposites, developing this potential is a time-consuming process.

58.2

Joyfulness

AREA: Drive / Q4

The insatiable drive to satisfy one's desire for unburdened joy of life and light-hearted vitality.

Potential 58 is the driving force to enjoy one's life in easy-going cheerfulness. It is the love of life that manifests itself in the wish to improve things in this world and bring them to perfection. It is the kind of vitality that challenges the status quo and is never satisfied. Its love of life is inexhaustible, and this potential benefits from putting its energy at the disposal of a larger, collective process. Having a task in which it can be of use will keep it from becoming insatiable or frustrated.

ASPECT: Unusualness

The drive for unusual stimulation.

LIGHT

The joy of life that fuels wondrous and unusual stimulations. >--<

SHADOW

The joy of perverted stimulation that damages oneself and others as it reduces the joy of life to decadence and debauchery. >U<

PERSPECTIVE 1ST HALF OF LIFE

P-SN

This activation indicates your view on the world during the 1st half of your life and the potential based on which you respond to it. This is a behaviour you were born with and which is always at your disposal. It can prove to be a valuable resource in stressful situations.

15.6

Flexibility

AREA: Identity / Q2

Flexible behaviour that balances extremes.

Potential 15 is the gift to react flexibly to people and challenges. It is capable of adapting to extreme or changing circumstances very easily. This potential accepts the entire range of human extremes and differences - as it is the love for humankind with all its extremes. Here, people can adopt much of what is possible in terms of extremes. Fixed patterns can be broken in order to adjust to changing circumstances. At a physical level this potential fulfils an important function: To suspend fixed rhythms as needed - for instance, staying awake if required, or rising particularly early.

ASPECT: Self-defence

Re-examination to find the weak point.

LIGHT

The power of the Self to explore extremes in order to find and eliminate the weakest point. >P<

SHADOW

The need for harmony which makes it impossible to explore things and find the weakest point. >V<

START OF 2. HALF OF LIFE: 14. Feb 1994

PERSPECTIVE 2ND HALF OF LIFE

P-NN

This activation describes how you will perceive the world in the 2nd half of your life. As the activations of the 1st and 2nd half of life are opposites, the world changes on principle during the middle years of your life (midlife crisis). Yet, it is actually not the world itself that changes, but your view on it and thus the way you respond to the world. This potential needs to be developed first.

10.6

Authenticity

AREA: Identity / Q4

Authentic behaviour as the basis for successful interaction in every situation in life.

Potential 10 is the ability to show one's Self in an authentic way. It is one's personal appearance, the behavior of the Self. It has a powerful effect and a conditioning influence on others. The way to self-love is to surrender to life in full, to explore it in order to become aware of oneself and one's authentic uniqueness. It was not made to adapt, but to stay true to its nature.

ASPECT: Exemplarity

Authentic example through actions rather than words.

LIGHT

The authentic role model expresses itself through action rather than words. >P<

SHADOW

Hypocrisy that uses many words but does not act upon them. >Sa<

**DRIVE**

D-Moon

This activation indicates what drives you in life. It is the fuel that “powers” your doings and dealings. In other words, the reason why you get out of bed in the morning, but also the emotionalizing drive to spring into action. That is, in all its periodically recurring dimensions from modest to extreme.

41.1

Hope

AREA: Drive / Q4

The hope that the desired development is possible despite or because of restraints.

Potential 41 is the driving force to have hopes and desires. It is the dream and the fantasy of a new experience, which makes it possible to surpass restrictions. It represents the lowest point of the wave's trough and is the only genetic start codon, meaning that this potential initiates a new cycle of experience out of restriction. Like a gardener who cuts back his trees in winter only to see them bud even more beautifully in the following year, this potential represents exactly this kind of pruning that will finally lead to cyclic progress and growth.

ASPECT: Reasonableness

To release feelings selectively, staying focused.

LIGHT

The energy to release feelings and the cool reasonableness to limit oneself and make the very best out of very little. >N<

SHADOW

The hotheaded urge to release feelings, while at the same time being entirely convinced of one's own capabilities, leading to overexertion. >Me<

**FOCUS**

P-Moon

This activation shows the focus that you never lose sight of. It reveals what you care about, what you see, what matters to you and what you always focus on in your actions and your thinking. For your personality it is an important principle of the mind to explore this aspect in all its extremes.

17.5 ▲

Opinions

AREA: Mind / Q1

Formulating useful opinions as a basis for organizing systems with foresight.

Potential 17 is the mental ability to process information into logical opinions as well as to organize the future with prudent foresight. Opinions require a logical basis in order for them to be understood and withstand scrutiny and criticism. Note that this is not about truth, but logical concepts on the basis of which systems and structures can be organized. This potential is connected to the right eye that sees clearly in the Now. It sees the details and knows how to project them as patterns into the future.

ASPECT: Synthesis

To recognize the value of collective intelligence.

LIGHT

The mental potential to form syntheses on the basis of many opinions and to recognize the value of collective intelligence in social communities. >U<

SHADOW

The arrogance to consider one's opinion the only valid one despite evidence to the contrary and not to recognize the value of collective intelligence. >Ma<

**COMMUNICATION**

D-Mercury

You do not only communicate with words, but also non-verbally. This potential indicates what you communicate without words and unconsciously by way of your aura and what others, maybe equally unconsciously, perceive in you. Last but not least, it describes the aspect that determines your way of listening. That which you will hear over and over again in this world.

43.6

Insight

AREA: Mind / Q4

The individual insight that originates from the inner voice and determinedly establishes new orders.

Potential 43 is the mental gift to generate sudden individual insights. Also in the form of the proverbial “inner voices” and “dropped pennies”. It has its very individual way of structuring knowledge. This potential is only interested in its own insights and frequently deaf to the explanations of others, as it must know things for itself. Here, insight happens impulsively, unpredictably. Suddenly it knows what there is to know. Until then the mind can also be focused on inner voices and sounds. Knowledge that is generated this way represents a very subjective and individual truth - freaky or ingenious.

ASPECT: Breakthrough

The breakthrough, as knowledge is collectively of value.

LIGHT

The breakthrough of unique, individual knowledge which is valuable both for oneself and the collective. >S<

SHADOW

An overrating of the importance of individual knowledge leads to neglecting other vital aspects. >Ma<

**MESSAGE**

P-Mercury

This potential indicates what occupies your mind, how you deal with sensations and about what you – consequently – like to talk about. It is, so to speak, your message to the world and describes the aspect on which you could become an authority to others.

13.2

Mindfulness

AREA: Identity / Q1

Attentive listening that helps grasp the teachings and experiences of the past.

Potential 13 is the gift of hearing experiences and sharing them. It attracts other people's stories quite naturally and in doing so, hears many secrets and experiences that are not shared with everyone. It is about communicating experiences within society and preserving memories and cycles of experiences - not only of individuals, but of humankind as a whole. It is the potential for heedful interaction and empathic listening.

ASPECT: Tolerance

Openness through tolerance of others.

LIGHT

Tolerant openness that serves the collective and includes different-minded people and groups. >Mo<

SHADOW

Hypocritical openness that abuses ideals based on a feeling of superiority in order to discriminate against other people and groups. >S<

♀

MORAL

D-Venus

This activation relates to the aspect of your design that governs the moral dimensions of relationships. It is also about innocent physical sensuousness and the pleasure you get in and out of relationships as well as the way you form and shape relationships.

1.3

Originality

AREA: Identity / Q4

The power to express individual, creative inspiration.

Potential 1 stands for originality and creation out of one's individual self. It is the huge potential for creativity that wants to express itself and get attention. Creativity occurs in moments of solitude, suddenly and unpredictably. It wants to unfold for its own sake, not for money or recognition. This potential represents a creative power that cannot be forced deliberately.

ASPECT: To keep things going

The need for expression independent of success.

LIGHT

The deep need to express one's own personality and to keep the energy, the creative process going. >Ma<

SHADOW

Material interests stall the flow of creativity. >E<

♀

VALUES

P-Venus

This activation expresses the values and ideals that influence your partnerships and friendships. On the one hand, these ideals are the fundament of your mind and, on the other hand, govern the physical response you experience in your relationships with other people. It is also the activation based on which you want to be accepted and valued by others.

61.1 ▽

Exploration

AREA: Inspiration / Q4

The mental pressure to explore the secrets of inner truths and basic universal principles.

Potential 61 implies the mental pressure to explore the inner mysteries. It wants to know the unknowable. This potential has considerable power for mutation. Many thoughts that are formed here can have a strong influence on other people. Those are inspirations that light up like flashlights. It loves mysticism and the big questions about the unknown. Here is where the pressure to find truths by way of thinking and exploring and to see behind the secrets of life originates. The truths that one finds are always individual and will sometimes not be accepted by the collective. This potential is also the source of esoteric or occult knowledge.

ASPECT: Occult knowledge

To solve mysteries with occult knowledge.

LIGHT

The psychic awareness that the secrets and mysteries of inner truth can only be solved in silence through knowledge that comes from within (esoteric). >N<

SHADOW

The withdrawal from worldly life is so strong that one can become incapable of grasping exoteric (external) knowledge. >V<

**CORE POWER**

D-Mars

This potential is probably still your diamond in the rough. It stands for the talent that is based on your very nature and is always related to a wound. Because our deepest hurts give rise to our greatest talents. Like a clam that builds a beautiful pearl around a painful grain of sand, this potential helps us develop our most wonderful talent.

30.3

Feelings

AREA: Emotion / Q1

AREA: Mind / Q4

The individual insight that originates from the inner voice and determinedly establishes new orders.

Potential 43 is the mental gift to generate sudden individual insights. Also in the form of the proverbial "inner voices" and "dropped pennies". It has its very individual way of structuring knowledge. This potential is only interested in its own insights and frequently deaf to the explanations of others, as it must know things for itself. Here, insight happens impulsively, unpredictably. Suddenly it knows what there is to know. Until then the mind can also be focused on inner voices and sounds. Knowledge that is generated this way represents a very subjective and individual truth - freaky or ingenious.

ASPECT: Expediency

Certainty endures reproach.

LIGHT

The certainty of knowing about the usefulness of the insight withstands criticism and enters any alliance to achieve breakthrough. >P<

SHADOW

Individual insights are abandoned in the face of condemnation, which makes it impossible to achieve the purpose.

>Mo<

**INNOVATION POWER**

It wants to be understood and attempts to convince others - also through facts and statistics that will prove its logic. It strives for precision and seeks to take all details into account, so that the opinions expressed will actually be considered within the collective.

29.3

Commitment

AREA: Life Force / Q3

Steadfast commitment that welcomes new cycles of experiences.

Potential 29 is the vital force to commit oneself to experiences and persevere. It is the potential to become fully involved in a process without knowing where one is headed. It is the potential of "Saying Yes" to life and experiences. It provides the vital force that keeps a person at what they do, no matter how difficult the circumstances. It is persistent and will also accept tasks and responsibilities just to have something that requires staying power. Sometimes it is also the gate of "Saying No" to life, if it does not accept that life can be difficult, too.

ASPECT: Caution

Cautious evaluation whether inaction makes more sense.

LIGHT

The ability to wait, as there is no clarity for a binding decision and the outcome of an experience is still uncertain.

ω

TRANSFORMATION

P-Pluto

When reality kicks in, so does fear. Mortal fear. This activation is closely connected to the fear of death. The question is: What can become "real"? 29.1

Commitment

AREA: Life Force / Q3

Steadfast commitment that welcomes new cycles of experiences.

Potential 29 is the vital force to commit oneself to experiences and persevere. It is the potential to become fully involved in a process without knowing where one is headed. WOUND / INHIBITING MINDSET

"I have to adapt and suppress my individuality so as not to be excluded."

♁

HEALING POWER

D-Chiron

61.5

Exploration

AREA: Inspiration / Q4

The mental pressure to explore the secrets of inner truths and basic universal principles.

ASPECT: Reasonableness

To release feelings selectively, staying focused.

LIGHT

The energy to release feelings and the cool reasonableness to limit oneself and make the very best out of very little. >N<

The Living Matrix

FORCE FIELD ANALYSIS PART C
"PSYCHOLOGY & HEALTH"

Steve Jobs

A core aspect of your energetic system is the „colors“ underneath the surface.

The following pages provide you with an overview of – which motivation moves you, - your perception of the world, - which diet and nutrition-related behaviour, - which sense of perception and – which environment are beneficial to your health and – which Cognitive Type you are.

MOTIVATION *)

Before an actor or an actress starts acting, they need to know "why" they do what they do in a certain scene. In other words, they try to get to the bottom of what motivates a character to act in a particular way. Likewise, you were born with a certain basic motivation, which "colours" your behaviour and allows a better understanding of why your potentials and talents unfold the way they do. A person with the same predispositions, but a different motivation, would behave in a different manner.

"Innocence"

To innocently observe without purpose and to maintain one's impartiality in order to "be oneself".

My basic motivation is to observe things innocently, even "without motive", and with this very motivation determine my approach to situations. This no-motive attitude will always be a part of what I do. I know that everything that is done has advantages and disadvantages, pros and cons. A motivation based on "innocence" is therefore not about pushing things into a specific direction, but about seeing the overall picture and maintaining one's impartiality. This is the only way I can really "be myself". There may be difficulties when I am faced with taking on management tasks, as every kind of management must always pass over a number of aspects which it consequently cannot take into account. This is a situation I do not feel comfortable with, as I dislike injustice and one-sided views.

*)This part of the analysis is only reliable when there is an exact birthtime (max ± 5 Min).

PERSPECTIVE

Imagine different people observing a situation or an event. Even though every one of them sees one and the same thing, each viewer will perceive and describe different aspects of what has been seen. This aspect of the Force Field Analysis looks at your perception of things and of the world as such.

"Social"

The social spirit that identifies what is missing, what is inadequate, and which contribution could be influential.

My perception is shaped by the fact that I have a keen sense of social matters. My social mind quickly realizes what is missing and how I can contribute to balancing such shortcomings. I know how to spot injustice and the needs of people who were less favoured by destiny. Based on this perception I always know what should be done and where help is needed most. I am also quick to detect opportunities for me to make sensible contributions. This can help me become influential and economically successful, since what I perceive is always something that is needed by others or in high demand. Those can be very special or even very global and general human or social needs.

HEALTH AND NUTRITION *)

The beneficial diet and nutrition-related behaviour describe what and how your body digests most effectively, and the best way for your body to absorb the substances in your food that it needs most. So on the one hand, this is about what you eat and drink and, on the other hand, about the atmosphere that is beneficial to you when you do it. If you keep this in mind, you will feel more vital, efficient, healthier, and find it easier to keep or achieve your ideal body weight. Also, there is mention of your most important sense of perception when it comes to selecting the food that is beneficial to you.

Appetite - alternating - "Gatherer" - Sensory Perception: Feeling

The "Gatherer or Buffet-Eater": Their digestive system is strong, but very simple. They like simply prepared, natural, pure food, such as vegetables, fruits, nuts, or simple dishes. They prefer a constant diet of smaller amounts throughout the day, and love to pick different kinds of food the way one does from a buffet. Ideally, the foodstuffs should not be mixed, but eaten separately. They should also avoid using too many spices or eating dishes that involve cooking too many products at once. They have difficulties in digesting modern, industrially processed food. The most important physical sense is the sense of emotional perception. Food should create a feeling of well-being and not blur the act of sensitive emotional perception. In this type awareness is created after they have experienced and felt something. This type attaches great importance to how food "feels" and which energies it possesses. This type has a flexible immune system. By giving the body time to fully process experiences, the immune system will be able to learn.

*)This part of the analysis is only reliable when there is an exact birthtime (max ± 5 Min).

BENEFICIAL ENVIRONMENT

The beneficial environment describes the setting in which you can best unfold your talents and potentials. This is essentially about the character of a room or a landscape – what you see and which feelings or stimulations the environment provides. At the same time the beneficial environment characterizes the way you should make contact with other people.

Shores / Transformation - artificial

The environment most beneficial to developing your talents is a place where different attitudes, influences and cultures meet and thereby have an impact on each other. This can be a harbour, or the departure hall of an airport, or a border region. In such kind of artificially created places of transition you are capable of achieving transformations that are desired or encouraged by those around you. For you, it is important to be in an environment that opens up new impressions and lets you look over the rim of your teacup, even if you are in a more or less passive state at the time.

COGNITION TYPE *)

The Cognition Type describes the way one processes information and the activity mode in which one's life unfolds. The attached "animal name" is only supposed to convey an archetypical image and help differentiate whether a Cognitive Type tends to be survival-minded (predator) or experience-minded (resource animal).

RLRR, "Sheep" Relationship-mindedness - Flow

I am in a passive flow with my experiences, relaxed and laid-back while, at the same time, I focus on a subject or a person in a receptive and relationship-minded manner without having any intention. I am a considerable resource for others and gather all sorts of knowledge out of my experiences. In this flow, I devote myself to everything with a sincere readiness to make sacrifices.

MIND AND APPROACH *)

I have a receptive mind that is very socially oriented and focuses on others, observing and absorbing everything about them. I am capable of perceiving very specific details and taking in everything I see in order to collect that kind of knowledge. This can make me a very valuable resource to others who do not have an equally keen and all-encompassing sense of perception.

ACTIVITY MODE und RELATIONSHIP MODE

I live life in a passive flow with my experiences and my environment, relaxed and without the pressure to survive. To me, life cannot be planned in advance, but represents a series of experiences. I am acutely present in the Now and let other people approach me. I love to deal with the topics arising in my environment.

*)This part of the analysis is only reliable when there is an exact birthtime (max ± 5 Min).

APPEARANCE

A person's appearance describes the characteristic trait that can be perceived by others and which results from unfolding one's personality authentically.

LEGEND

- EXEMPLARY / visionary** People who have this kind of charisma are authentic as they simply "do their thing", living up to their individuality. This may have an exemplary or even visionary effect on others.
- MOTIVATING / wise** This charisma is based on the wisdom of what is virtually feasible and the ability to motivate others to follow a promising path.
- EMPATHIC / open-hearted** This charisma will open the door to others. To approach one's neighbour with an open heart, perceiving and responding to their needs.
- EXPERIENCED / humorous** This charisma is always connected to a certain humorous way of "being above things". Because only those will fail, who do not get up after falling down.
- TALENTED / passionate** This charisma will present itself when a person passionately follows their talents and their specialization.
- SECURE / daring** This confident charisma is based on creating or mastering the principles. This is why one can show courage and undertake bold ventures.

PROSPERITY PROFILE

Material wealth, security and growth are among the basic needs of every man and woman, and rightly so. Still, they do not mean the same to everyone. Each person has their individual mode of how to master the material plane. This chart shows you how the different prosperity modes are defined in your life and how you can personally tap into the power of the material "flow".

DEVELOPMENT SEQUENCE

Talent	30.3	Realization
Cooperation	56.4	Networks
Appearance	55.6	Visionary
Prosperity	53.6	Independent

LEGEND

- INDEPENDENT** A master in the art of living likes to be free of material attachments. In this case "being in the flow" and "living from hand to mouth" is equivalent to material prosperity. Here, the focus is not on the accumulation of reserves, but on the basic principle of life to have exactly what is needed at any given moment.
- ACCUMULATION** Here, prosperity means gathering resources and building reserves. It will help one sleep better. These resources also lead to influence because others know about them. The rate between accumulating resources and spending them should be well balanced in order to avoid the danger of becoming closefisted.
- CHARITY** In this case prosperity is created through generously sharing with people who have less than oneself. Sharing for charitable reasons will make sure that resources keep being replenished. A strong social streak is useful to see who actually needs and deserves to receive one's resources.
- INVESTMENT** It is conducive to prosperity when the available resources are wisely invested. This may also go beyond personal means (e.g. in the form of loans). In this mode one can also generate income through skilful investments and a certain readiness to assume risks, while at the same time heartily enjoying one's life.
- STEERING** Here prosperity is created by steering resources that are not one's own. And yet, this is also the way to meet one's own material needs. It is not about having large personal resources, but about having an influence on how other people use theirs.
- SOLIDITY** Prosperity is created if one's material existence is secured and well established, if there are reserves available, if there is a good overview of income and expenditure, and no major risks are being taken. In this mode, one will rest easier if there are only few liabilities and one only spends what one has earned.

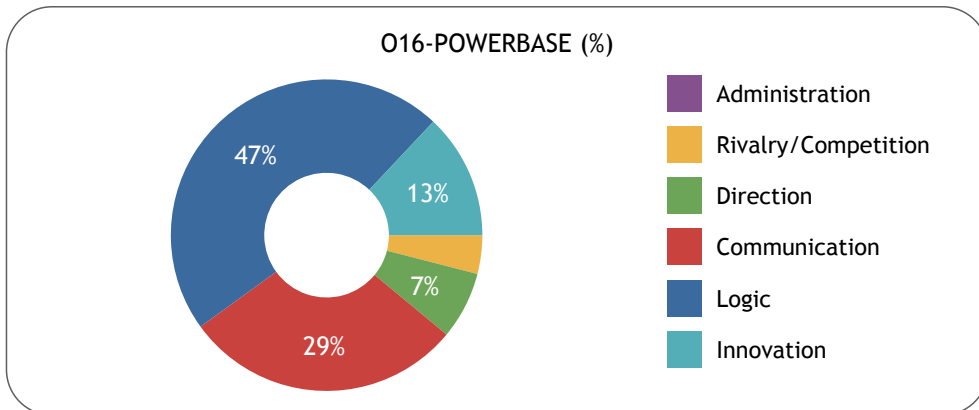

LEADERSHIP STYLE

Nobody can lead like you do! This chart displays your authentic behaviour in management and the leadership style that will make others follow and trust you. This leadership style does not only refer to an active role, but also applies to the way you would like to be led yourself.

This chart indicates the areas in which you will be most effective when working in a larger organization (starting with 16 people). The graphic also shows which should be the dominant Powerbase in an organization in order for you to be energetically supported in your leadership role.

MISSION

Every person is born with a certain mission, a certain "cross". In a manner of speaking, every human being has to carry their individual "cross". 64keys distinguishes between 768 crosses. The following text is an attempt to briefly outline your personal task.

The transpersonal Cross of Spirit (1)

This mission is about finding and spreading the individual spirit - the individual emotional attitude of mind. The wealth of my life as well as the quality of my relationships depends on my individual mood. When interacting with other people I keep provoking their emotions so as to challenge their underlying attitude of mind. I can become wildly enthusiastic once I identify with something. I also love to repeat and perfect my abilities, which is why I can become a master of details. In that case it is also about focussing on the right details and steps in order to keep my own emotional attitude of mind strong. I have the necessary vitality to establish relationships regardless of the circumstances, be it just for one moment or for eternity, and to live out closeness based on spiritual kinship. As I live and breathe the attitude of mind that material wealth and individual spirit are mutual prerequisites, I am able to live my life knowing that all things are connected to each other. Owing to my continuing enthusiasm and consistent work on the details I am capable of avoiding failure and bringing about considerable changes. In the course of my life I will gather the necessary experience to consider all details of a process without missing one of them. Based on my huge creative potential, I can contribute to spreading my spirit. I also consider music, the arts, fine food, and fulfilling relationships immensely important.

PROFILE

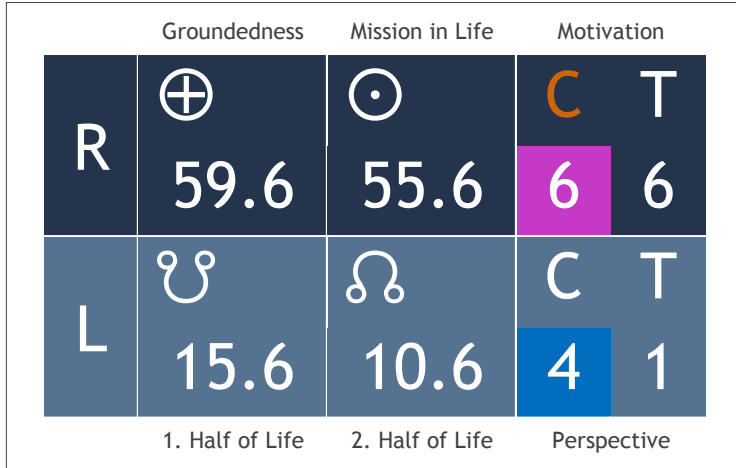

While the life's mission describes your role in life, the mode represents your approach. Your profile (64keys distinguishes between 12 different profiles) also stands for the way your social life unfolds and the manner in which you approach the tasks in your life.

6/3 Exemplary Change Agent "INNOVATOR"

I am interested in innovative and novel things which I co-shape by means of my individuality. I drive novel developments and pave the way for new areas. I transform established things and, based on my innovative power, I am a master of transformation.
