AUTHENTIC ROLES

PERSUADER - ORGANIZER - ALLOCATOR - PERSON OF ACTION - EXISTENTIALIST

BASIC TYPOLOGY

64keys distinguishes between five basic types. For each type life unfolds in a different way, while each type has its very own strengths and weaknesses. The following description of the type you belong to mainly refers to the best possible way for you to unfold when cooperating with others.

"SPECIALIST"

CHARACTERISTIC

Being a Specialist, I possess readily available life force energy that wants to unfold in its own special manner. For me, it is part of a life worth living to be busy and use my life force in a very special way, no matter if for work or recreational activities. My life's energy needs some kind of occupation; it wants to be used. I am capable of working very independently, as long as the work meets the qualities I feel specialized for. On principle, a Specialist's Force Field is open, yet it can appear to be self-contained when I am fully absorbed in what I do.

STRENGTHS

One of the greatest strengths of a Specialist is their capability to put things into practice independently, powerfully and with great speed. It is important for me to understand that life and thus life's energy always unfold as a response to the environment. Much like a plant's life force responds to light and other kinds of environmental conditions, my life force reacts, too, and thereby knows exactly whether or not my energy wants to be spent on a certain demand or issue. In other words, highly intelligent answers to all possible questions are already built into my body. Once I learn how to follow my life force and listen to what I am actually ready to use my energy for, my life will unfold with ease and to my utmost satisfaction.

WEAKNESSES

Life force wants to be used, to be transformed. My life force does not want to sit around doing nothing. Still, there is not always a satisfying opportunity for it to be used. For that reason, I can tend to apply my life force somewhat unselectively. Maybe I spend my time doing things that do not satisfy me at all. Maybe I allow myself to be lured into doing things or be ordered to do something that prevents my specialized generating powers from unfolding properly. It is one of my biggest weaknesses to dedicate my life force to activities I am not satisfied with. Be it for reasons of social pressure or the belief that I have to prove something to someone. It is one of the Specialist's weaknesses not to be available for others when they are busy generating. Also, I can grow very impatient with others, as I expect them to have the same high generating speed as I do. Owing to that speed I frequently miss details that I have to make up for at a later stage. This can be very tiresome and annoying for me.

ADVICE

For me, it is ideal to listen to my life force attentively. I want to be asked. I should only invest my energy, if I really feel disposed to do or realize that very thing I'm being asked for. Whenever possible, I should avoid making decisions in my head, because the energy has to act out of my body. The mind is simply a valuable resource that makes my actions intelligent and efficient. But the mind does not supply energy, and therefore should not be the most important decision-making authority. I know that it is not good for me to initiate things or make too many plans. I should be open to respond to life at any time. It is this kind of response that reveals the real treasure of my body's intelligence. Whenever I feel powerless and exhausted, I know that in this moment I am devoting my energy to something that is not suitable for me. I am, so to speak, abusing my life force which then refuses to serve.

SOME PROMINENT REPRESENTATIVES OF YOUR TYPE

Tina Turner, Arnold Schwarzenegger, Martin Luther King, Michael Jordan, Cristiano Ronaldo, Muhammad Ali, David Bowie, David Copperfield, Harrison Ford, Whitney Houston, Angelina Jolie, Prince, Henry Ford, Sean Connery, Hillary Clinton, Miley Cyrus, Cameron Diaz, Audrey Hepburn.

CENTERS / FUNCTIONS

There are nine centers in every Force Field. Each center has a certain function and can either be open (white) or defined (coloured). Mind you, open or defined does not mean better or worse. An open center has different potentials than a defined one, and of course for each potential there is also a shadow. The following analysis provides you with an overview of which of your centers are open (perceiving) and which are defined (impacting). Your opportunity for development lies in moving out of the shadow mode to fulfilling the potential. Depending on whether a center's colour is orange or blue, it is either unconsciously (orange) or consciously (blue) defined.

My INSPIRATION CENTER is OPEN

POTENTIAL

My open Inspiration Center has the potential to find out exactly which issues other people are mentally dealing with. When I am sensitive to the mental pressure of others, I am good at finding answers to their questions. In doing so I ought to distinguish whether or not those questions are relevant to me. If they are not, I can easily switch off and live without mental pressure.

SHADOW

My open Inspiration Center runs the risk of dealing with all questions arising in my environment, even if those questions have nothing to do with my own life. I sometimes experience huge mental pressure when others are searching for answers to questions. If I allow myself to be influenced by this too much, I may have a very hard time to relax and rest my mind.

My MIND CENTER is DEFINED

POTENTIAL

My defined Mind is perfectly suited for drafting concepts and formulating ideas. I know how to process information in a certain way and conceive new thoughts out of it. My Mind can be very inspiring to others, and my concepts can make an important contribution. I am most convincing when asked to express my ideas and concepts.

SHADOW

My defined Mind is designed to think and process information in a very particular way. If something does not fit into my pattern of thought, I can be perceived as being slow-witted. My way of thinking is rather definite. This is why my concepts and ideas may not always seem to match the current context.

My EXPRESSION CENTER is DEFINED

POTENTIAL

I specialize in a certain way of talking or putting things into action. I can be very sure of what I say or do and also know how to convince others. I find it easy to make myself heard and contribute to matters by way of communication, which will also have an impact on my environment.

SHADOW

My defined Expression Center can represent a limitation in terms of how I express myself and how I put things into practice. I may miss the current context, which in turn could cause others to misunderstand or render my actions and manifestations unsuitable in a given situation. I may also tend to interrupt others and take up too much space for my own expressions.

My IDENTITY CENTER is DEFINED

POTENTIAL

I can rely on my defined Identity to point out my direction. I know who I am, which direction matches my purpose and which people can accompany me along the way. I have this kind of self-confidence that can be appealing to others. I know how to follow my path and provide direction to others.

SHADOW

My defined Identity can make me become very inflexible when it comes to considering my way to be the only way and, in doing so, maybe steamroller other people. My identity is rather definite, and sometimes I have a hard time adapting to the context or to other people. My self-confidence may render me insensitive to grasping other people's nature.

My WILLPOWER CENTER is DEFINED**POTENTIAL**

Owing to my defined Willpower, I have a reliable source of power at my disposal for putting that which I want into practice. This kind of power may be in frequent demand and highly desirable when cooperating with others, as people recognize my ability to make an important and determined contribution to the development of the community. Thanks to my Willpower I can be endowed with authority and dominance.

SHADOW

My defined Willpower frequently refuses to acknowledge the contributions of others appropriately, as I want things to happen my way - the things I have willpower for. This may be aggravating for others, as they feel my ego dominance and maybe fight this dominance or refuse their support. I ought to stay sensitive to the needs of others so as to avoid the risk of having to do things all on my own.

My EMOTIONAL CENTER is OPEN**POTENTIAL**

Owing to my open Emotions I am capable of sensing other people's feelings very acutely. Due to this empathic capacity, no sensation and no emotion remain hidden to me. I can sense very clearly how other people feel and which emotions can affect them. Provided I understand that much of what I feel is strongly influenced by the feelings and emotions of those around me, I can utilize this sensitivity with great success, and not identify with the feelings of others.

SHADOW

My open Emotions make me very sensitive to the feelings of other people. If possible, I should try to avoid triggering negative emotions in others. This in turn could make me try to please everybody and maybe even seek harmony, when the smart thing to do would be to take a firm stand. Even if this meant risking a conflict. When I amplify the feelings of others, I can come across as being emotionally short-tempered.

My INTUITION CENTER is OPEN**POTENTIAL**

My open Intuition excels at sensing what will convey safety and well-being. I am very good at observing whether or not others are in good health or feeling well. This means that, at a physical level, I have a strong empathic sense of certain situations, environments and other people. My open Intuition provides me with highly sensitive powers of perception that help me find the capacities and the people that are likely to secure my own survival.

SHADOW

My open Intuition Center can sometimes cause me to feel unsure and unwell in my own body. I therefore tend to seek the protection of others and relinquish my independence. The fear of being abandoned or being alone can lead me to cling to situations and relationships for a longer time than is healthy or beneficial for me. I may also have a hard time making spontaneous decisions.

My LIFE FORCE CENTER is DEFINED**POTENTIAL**

Owing to my defined Life Force, I seem to have sheer infinite productive capacity and creative powers. I have the energy to put things into practice while at the same time cooperating with others in an open manner. Once I get a physical response to something, my Life Force will unfold quite effortlessly and provide me with a high degree of satisfaction.

SHADOW

As I possess sufficient energy, I could tend to waste that vital force and sometimes act with a lack of efficiency. I can be quick to use my vital energy on activities in which I do not find satisfaction. It is important for me to say No, if I am not in the mood for doing something, or had to do something on terms that are not to my liking. Otherwise I could become very frustrated and demotivated.

My DRIVE CENTER is OPEN**POTENTIAL**

My open Drive Center provides me with a high degree of equanimity. I am good at distinguishing whether or not something is worth acting upon. When I am put under external stress, I can be very fast and accomplish things quickly. Without such outside pressure, I remain unhurried and calm and find it easy to relax.

SHADOW

My open Drive Center can easily come under outside pressure. I am susceptible to getting stressed by others, which can lead me to do things very quickly - maybe too quickly. This may cause a lot of hustle and bustle in my environment. On the other hand, I sometimes feel unmotivated and lazy, which is not a shortcoming, however, but my relaxed and natural state.

SPECIALIZATIONS 1 - 4

The specializations of a Force Field are the talents that can manifest themselves at any time and represent your most important natural predispositions. 64keys distinguishes between 36 different specializations. Their combination allows us to draw very accurate conclusions about the ways you can unfold authentically.

CONVICTION - Following one's own convictions by using one's energy in an authentic way.

This specialization demands that I only do things I am truly committed to, which can inspire strong and powerful creativity. It is not about forcing my convictions and beliefs on others, but about living life true to myself. In doing so, I can empower and encourage others to follow their own path and find their own integrity. I do not necessarily need to know the reasons for my convictions, even though other people may expect me to. I will trust my convictions to lead me to the right places and the right people. No matter what others think or say about it.

CONCEPTION - Establishing precise and foresighted concepts that show the logical way into the future (organizational talent).

Endowed with this kind of specialization, I need a lot of information before I can speak. The opinions I voice have to be backed up by facts and details. Other people are usually impressed by my detailed knowledge. However, when speaking out of turn, I can easily bore others with seemingly unnecessary details. This specialization is closely connected to the right eye. This eye is meant to discern logical patterns and focus on the details. I am a very visually oriented person. Pictures and graphical representation are important for me. Very often I can say more in a sketch than with words. I have the qualities of a "logical think tank". I excel at organizing others and leading them with foresight towards the future. My management qualities and organizational talent are based on my ability to grasp all details of a structure and detect possible flaws and deviations. Such qualities are in great demand in any enterprise or organization and are as such very welcome.

GOVERNANCE - The skillful administration and fair distribution of material resources out of personal integrity.

This specialization challenges me to master life on the material plane. One way of being materially successful is to take things into my own hands and simply have my way. I am a veritable One-Man/ One-Woman Show. As my willpower is very strong, allowing it to unfold naturally can be seen as sheer selfishness. In larger structures my management qualities will attract attention. I sometimes consider democratic processes very cumbersome as I usually think that things should happen exactly the way I want them to. Owing to this specialization, I am capable of getting to the top of a community, to lead and to have control over material processes. If this is not possible or welcome, I prefer to act on my own instead of taking up a subordinate role in society. It is difficult to keep a check on me, and if someone tried it nonetheless, it will be very uncomfortable for me and usually fail to come off. I love to work for my own benefit and not let myself be used for other people's purposes.

ACTIVITY - The emanation and effective expression of one's life force.

This specialization empowers me to express or manifest my life force and creative powers at any given time. This charismatic quality is very appealing to others, as long as I am actually doing something I like or even love to do. Sometimes other people consider me "non-available", as I can be deeply absorbed in my life's processes. When I engage in things I do not love, it may appear to be a matter of being busy for activity's sake and thus be hardly charismatic. No one should have the right to tell me what to do with my inexhaustible vital power. Whatever I do, it will always be a very individual matter and maybe difficult for others to understand. None of that matters as long as I love what I do. Then my actions can really get things moving. Still, I am not at all good at waiting for things. I find it very challenging to have patience with others or myself. Therefore, I may sometimes be too quick in doing or saying things.

SPECIALIZATION 5

PRESENCE - Authentic behaviour as an expression of the Self in the Now.

This specialization enables me to empower other people quite naturally through my authentic being and self-love. And with it comes the capability to survive under any circumstances due to the perfect expression of my own identity. The more authentic I am and the greater my self-love and self-acceptance, the better the quality of my presence can develop. I can strongly identify with what I say. On the one hand, this makes me very convincing, yet, on the other hand, vulnerable to criticism. For me, being criticized for what I say or do is identical to being criticized for what I am. Success will largely depend on how much I can find assurance in self-appreciation. To what extent I have been "awakened" within myself. Whenever I feel inclined to "play a role", people around me will immediately find me out. I just need to "be myself". No matter what it may cost or who will turn their back on me.

Further specializations can be formed when cooperating with others and depend on the person one interacts with. Which kind of specializations they are, can be explored in interaction analyses or team analyses.

The Living Matrix

FORCE FIELD ANALYSIS PART B

"LIGHT & SHADOW"

Arnold S.

The following pages include a detailed description of your most important potentials. In it, the meaning of each potential refers to the respective planet or celestial body through which it is activated.

Every activation can be expressed in its light mode or shadow mode. Whenever you leave the mode of effortlessness and calmness, you run the risk of living the shadow and, as a consequence, encounter resistance everywhere around.

Advancing one's personal development requires knowing about one's shadows and being aware of their influence.

MISSION IN LIFE

P-su

This activation is the most important one in your design. It shows your life's mission, that is, the vital center around which your life revolves. The essential point is to unfold, develop and fulfil this potential. It is the light that can make you shine. Here is where you can be a "star".

31.5

Influence

AREA: Expression / Q2

The effective expression that establishes the claim to leadership within the collective.

Potential 31 represents leadership into the future. It has a strong influence on others, most of all through the use of language. It says, "I lead you". Here, a strategy becomes manifest by means of influence. It is the potential to become a figurehead who influentially determines leadership. It puts into words which one of the strategies will achieve the desired results. It will be heard, provided that it has been authorized by the collective. It is about expressing one's influence for the benefit of the collective as well as establishing a secure future for the collective.

ASPECT: Attitude

Leadership in accordance with inner attitude.

LIGHT

Based on the ability to lead oneself, the expectation of others that a leadership role can be assumed.

SHADOW

When bestowed with leadership, the self-righteousness to have one's own attitude take center stage and develop no ambition that would serve the common good.

GROUNDEDNESS

P-ea

This activation indicates how your life's mission can take roots. It is the potential that will help you "prepare the ground" for your life's mission, that is to say, the aspect that makes you well-grounded and self-confident. One's life's mission and one's rootedness are the - frequently opposed – aspects which together form a whole.

41.5

Hope

AREA: Drive / Q4

The hope that the desired development is possible despite or because of restraints.

Potential 41 is the driving force to have hopes and desires. It is the dream and the fantasy of a new experience, which makes it possible to surpass restrictions. It represents the lowest point of the wave's trough and is the only genetic start codon, meaning that this potential initiates a new cycle of experience out of restriction. Like a gardener who cuts back his trees in winter only to see them bud even more beautifully in the following year, this potential represents exactly this kind of pruning that will finally lead to cyclic progress and growth.

ASPECT: Authorization

Authorization, as the potential has been recognized.

LIGHT

The ability to focus one's energy on the essentials in times of limitation is recognized by others.

SHADOW

A persistent dissatisfaction with limitations threatens development, as offered support is not recognized.

APPEARANCE

D-su

This activation represents your physical and unconscious aura. In other words the potential, which others perceive in you. You yourself may not even be aware of this aura. But there is nothing you need to do to unfold the potential. It is always there. It is the part of your genetic code that you inherited from your father.

24.1 ▲

Introspection

AREA: Mind / Q1

The mental process which, following introspection, facilitates spontaneous renewal through individual truths.

Potential 24 is the mental processing of individual knowledge by way of introspection. It is the ability of the mind to select inspiring questions and repeat and re-process them until they have been rationalized and mental calmness can be restored. Only then can individual truths be shared with others. The ever-recurring thoughts may lead a person to ponder and reflect, always aiming at recognizing an individual truth and reaching conclusions out of it.

ASPECT: Reassessment

Past thinking is corrected before renewal can take place.

LIGHT

Inspiration that needs a reassessment of past thinking so as to facilitate rational concepts.

SHADOW

Holding on to past thinking without seeing the value of a new inspiration.

PURPOSE

D-ea

This activation indicates your purpose in life; what you represent to others in this life. You inevitably fulfil this purpose without being able to do or change anything about it. It is, so to speak, the unconscious reason of your incarnation – the connection to your inner self. It is the part of your genetic code that you inherited from your mother.

44.1

Collaboration

AREA: Intuition / Q3

The instinctive awareness that impartiality supports successful cooperation.

Potential 44 is the instinctive awareness for survival through collaboration. It has a nose for the right people for any cooperation. It operates out of an instinctive alertness that remembers successes and setbacks from the past. This consideration of the past is a mechanism for survival, which does not only protect the individual, but the community they belong to. It is capable of developing the structures for a healthy cooperation.

ASPECT: Conditions

Structuring the collective through conditions.

LIGHT

The instinct of structuring the community and assigning the roles, even if it means establishing restrictive conditions for some.

SHADOW

The interaction with the members of the community that strives for harmony but fails to establish conditions, which can threaten success.

ENVIRONMENT 1ST HALF OF LIFE

D-sn

This potential is always at your disposal starting from the moment of your birth. It shows how you connect with your environment and what will always be a matter of importance between you and others. This potential also describes the environment in which you move during the 1st half of your life, as it is the environment you respond to most, owing to this potential.

34.3

Strength

AREA: Life Force / Q4

Greath strength and power that is only legitimate when serving the common good.

Potential 34 is the vital force of individual strength and power. It is the pure and unconditional power of the individual, ready to show itself and available for use. It is pure vital energy that is self-strengthening and has the urge to show that one is different, that one is powerful. It is the seat of a power, which can cause a manifestation in the Now. It is the potential to be busy and diligent, even at the cost of ignoring other people's interests. Because unfolding this power can appear to be selfish, if one forgets that strength and power must always serve the common good.

ASPECT: Machismo

The display of power that can be delusional.

LIGHT

The natural display of power that can be accompanied by a sense of machismo and strongly defines the nature of power.

SHADOW

The reasoned, calculated and distinct display of power which can also be perceived as a threat, a bluff or the fanning of a peacock's tail.

START OF 2. HALF OF LIFE: 16. Jan 1987

ENVIRONMENT 2ND HALF OF LIFE

D-nn

While the potential of the 1st half of your life is always at your disposal, you will have to work hard to acquire the potential of the 2nd half. This activation also specifies how and about what you will connect with others during the 2nd half of your life. As the activations of the 1st and the 2nd half of life are opposites, developing this potential is a time-consuming process.

20.3

Presentness

AREA: Expression / Q2

The kind of presentness in the Now that turns insights into spontaneous expressions or actions.

Potential 20 is the expression of being present in the Now. It means being aware of the present moment, of the existential presence. It operates in the Now and is the voice that says, "I am Now". It is the potential to express oneself spontaneously and individually. It is the sheer expression of presentness. This is where individual strength, individual intuition and authentic behaviour can become manifest and be expressed.

ASPECT: Self-consciousness

Self-conscious analytical perception.

LIGHT

The self-confident perception in the Now, which supports the adaptation and development of personality.

SHADOW

The extreme expression of self-consciousness that hampers development as it denies the need for it.

PERSPECTIVE 1ST HALF OF LIFE

P-sn

This activation indicates your view on the world during the 1st half of your life and the potential based on which you respond to it. This is a behaviour you were born with and which is always at your disposal. It can prove to be a valuable resource in stressful situations.

34.1

Strength

AREA: Life Force / Q4

Great strength and power that is only legitimate when serving the common good.

Potential 34 is the vital force of individual strength and power. It is the pure and unconditional power of the individual, ready to show itself and available for use. It is pure vital energy that is self-strengthening and has the urge to show that one is different, that one is powerful. It is the seat of a power, which can cause a manifestation in the Now. It is the potential to be busy and diligent, even at the cost of ignoring other people's interests. Because unfolding this power can appear to be selfish, if one forgets that strength and power must always serve the common good.

ASPECT: Intimidation

To display power as a response to frustration.

LIGHT

Displaying one's power to intimidate others.

SHADOW

Getting one's comeuppance for the random display of power opposite weaker people is the inevitable destiny and the appropriate punishment.

START OF 2. HALF OF LIFE: 16. Jan 1987

PERSPECTIVE 2ND HALF OF LIFE

P-nn

This activation describes how you will perceive the world in the 2nd half of your life. As the activations of the 1st and 2nd half of life are opposites, the world changes on principle during the middle years of your life (midlife crisis). Yet, it is actually not the world itself that changes, but your view on it and thus the way you respond to the world. This potential needs to be developed first.

20.1 ▽

Presentness

AREA: Expression / Q2

The kind of presentness in the Now that turns insights into spontaneous expressions or actions.

Potential 20 is the expression of being present in the Now. It means being aware of the present moment, of the existential presence. It operates in the Now and is the voice that says, "I am Now". It is the potential to express oneself spontaneously and individually. It is the sheer expression of presentness. This is where individual strength, individual intuition and authentic behaviour can become manifest and be expressed.

ASPECT:

Shallowness that accepts slogans.

LIGHT

The awareness in the Now, which only considers urgent and current aspects.
Raising superficiality to an art form.

SHADOW

The expression of the superficial personality, which has only slogans to offer and builds on shallow thoughts.

©

DRIVE

D-mo

This activation indicates what drives you in life. It is the fuel that “powers” your doings and dealings. In other words, the reason why you get out of bed in the morning, but also the emotionalizing drive to spring into action. That is, in all its periodically recurring dimensions from modest to extreme.

29.1**Commitment**

AREA: Life Force / Q3

Steadfast commitment that welcomes new cycles of experiences.

Potential 29 is the vital force to commit oneself to experiences and persevere. It is the potential to become fully involved in a process without knowing where one is headed. It is the potential of “Saying Yes” to life and experiences. It provides the vital force that keeps a person at what they do, no matter how difficult the circumstances. It is persistent and will also accept tasks and responsibilities just to have something that requires staying power. Sometimes it is also the gate of “Saying No” to life, if it does not accept that life can be difficult, too.

ASPECT: Fulfilment of duties

The power to persevere as long as necessary.

LIGHT

The ability to say Yes to new experiences and the power to hang on until the experience has been concluded.

SHADOW

The inability to see experiences through to the end and, based on that, the fear of new experiences and obligations.

©

FOCUS

P-mo

This activation shows the focus that you never lose sight of. It reveals what you care about, what you see, what matters to you and what you always focus on in your actions and your thinking. For your personality it is an important principle of the mind to explore this aspect in all its extremes.

10.6**Authenticity**

AREA: Identity / Q4

Authentic behaviour as the basis for successful interaction in every situation in life.

Potential 10 is the ability to show one's Self in an authentic way. It is one's personal appearance, the behaviour of the Self. It has a powerful effect and a conditioning influence on others. The way to self-love is to surrender to life in full, to explore it in order to become aware of oneself and one's authentic uniqueness. It was not made to adapt, but to stay true to its nature.

ASPECT: Exemplarity

Authentic example through actions rather than words.

LIGHT

The authentic role model expresses itself through action rather than words.

SHADOW

Hypocrisy that uses many words but does not act upon them.

**COMMUNICATION**

D-me

You do not only communicate with words, but also non-verbally. This potential indicates what you communicate without words and unconsciously by way of your aura and what others, maybe equally unconsciously, perceive in you. Last but not least, it describes the aspect that determines your way of listening. That which you will hear over and over again in this world.

51.6

Courage

AREA: Willpower / Q1

The willpower to courageously respond to disorder and shock and stand one's ground.

Potential 51 embodies deliberate and bold initiation. It represents the individual willpower to be the first or best in something. With the motto "where there's a will, there's a way". It is the potential of competition, of the warrior, of courage, but also of foolishness, as courage can sometimes turn out to be foolish. It has the ability to shock and loves to go where no one else dares to go. Yet, it is also able to deal with the shocks it received. It is the "daring heart" that will attempt or bear the unpredictable and the exciting.

ASPECT: Separation

The power to face challenges alone.

LIGHT

The willpower and vitality in times of crisis to meet challenges alone and not to succumb to the general panic.

SHADOW

The Ego-power to face challenges alone, which may provoke and strengthen the challenger.

**MESSAGE**

P-me

This potential indicates what occupies your mind, how you deal with sensations and about what you – consequently – like to talk about. It is, so to speak, your message to the world and describes the aspect on which you could become an authority to others.

53.4

Readiness

AREA: Drive / Q2

The willingness to start new developments and advance them steadily and patiently.

Potential 53 is the motivation and the readiness to begin something new. It is the pressure of the starter energy to begin a new cycle of experience without knowing exactly where it will lead. Here is where the energy for new beginnings is released, and does not matter whether everything that is started also gets finished. It is ready to patiently push new developments in a structured way, even if this may seem complex and difficult at the beginning and there is no certainty that others will provide their support. There is also the potential to include well-trying and established methods in the process.

ASPECT: Assuredness

The assuredness to maintain one's individuality in beginnings.

LIGHT

The confidence and strength to maintain one's individuality even in difficult, complex situations and confused beginnings.

SHADOW

The pressure to begin new things is so strong that "dropping" something recently started will result in unpleasant or embarrassing situations.

♀

MORAL

D-ve

This activation relates to the aspect of your design that governs the moral dimensions of relationships. It is also about innocent physical sensuousness and the pleasure you get in and out of relationships as well as the way you form and shape relationships.

17.2

Opinions

AREA: Mind / Q1

Formulating useful opinions as a basis for organizing systems with foresight.

Potential 17 is the mental ability to process information into logical opinions as well as to organize the future with prudent foresight. The Living Matrix

FORCE FIELD ANALYSIS PART C
"PSYCHOLOGY & HEALTH"

Arnold S.

A core aspect of your energetic system is the „colors“ underneath the surface.

The following pages provide you with an overview of – which motivation moves you, - your perception of the world, - which diet and nutrition-related behaviour, - which sense of perception and – which environment are beneficial to your health and – which Cognitive Type you are.

MOTIVATION *)

Before an actor or an actress starts acting, they need to know "why" they do what they do in a certain scene. In other words, they try to get to the bottom of what motivates a character to act in a particular way. Likewise, you were born with a certain basic motivation, which "colours" your behaviour and allows a better understanding of why your potentials and talents unfold the way they do. A person with the same predispositions, but a different motivation, would behave in a different manner.

"Desire"

The strong desire to demand what is extraordinary. At a material level or regarding one's social position.

My basic motivation is to make high demands on life. Not only in terms of quantity, but also of supreme quality. I do not just want the things everyone else can have, too. No, it has to be something special. Special when it comes to material possessions, but also regarding my social position. I want to be seen and acknowledged, and I'm ready to do and try quite a lot to achieve it. When it comes to hierarchical structures, I do not content myself to run along with the mainstream. I want to lead and exert influence. I also have the constant need to initiate development, even if it leads to a process of trial and error. I am hard to please, as no one knows better than me that there is always room for improvement. And my desire urges me on to achieve the best.

*)This part of the analysis is only reliable when there is an exact birthtime (max ± 5 Min).

PERSPECTIVE

Imagine different people observing a situation or an event. Even though every one of them sees one and the same thing, each viewer will perceive and describe different aspects of what has been seen. This aspect of the Force Field Analysis looks at your perception of things and of the world as such.

"Political"

The political spirit that knows how to identify power structures and chances in its environment and use them for its own ends.

My perception is shaped by the fact that I am very good at sensing and seeing through connections and relationships at life's material level. This view is a good basis for me to be successful myself and find my way within political or any other kind of power structures. I see who is powerful, who is successful and which relationships and structures are necessary to achieve outstanding success at a material level. This perception provides me with a keen sense of different social environments and enables me to see what could possibly be changed and developed. Based on this perception I know how to identify chances of my own and use them to my advantage, or to actively change or shape my environment.

HEALTH AND NUTRITION *)

The beneficial diet and nutrition-related behaviour describe what and how your body digests most effectively, and the best way for your body to absorb the substances in your food that it needs most. So on the one hand, this is about what you eat and drink and, on the other hand, about the atmosphere that is beneficial to you when you do it. If you keep this in mind, you will feel more vital, efficient, healthier, and find it easier to keep or achieve your ideal body weight. Also, there is mention of your most important sense of perception when it comes to selecting the food that is beneficial to you.

Thirst - cold - "Cold Eater" / Sensory Perception: Touch

The "Cold Eater": Their digestive system tends to be too hot, which is why they should eat only cold* meals and drink only cold* beverages. For this type, the most important dietary rule is to drink sufficient amounts of cool liquid and look for good water quality. They should refrain from consuming hot dishes and drinks, and wait until hot food has cooled before consuming it. This helps balancing the regulation of body temperature as well as the intake and storage of liquid. The most important physical sense is the sense of emotional perception stimulated by the touching of food. The sense of touch is highly developed. Hence when selecting food, the food products should be touched. Ideally, this type does the cooking themselves. This type possesses a flexible immune system. By giving the body time to fully process experiences, the immune system will be able to learn.

*) Cold means: below room temperature, cooled.

*)This part of the analysis is only reliable when there is an exact birthtime (max ± 5 Min).

BENEFICIAL ENVIRONMENT

The beneficial environment describes the setting in which you can best unfold your talents and potentials. This is essentially about the character of a room or a landscape – what you see and which feelings or stimulations the environment provides. At the same time the beneficial environment characterizes the way you should make contact with other people.

Shores / Transition - natural

The environment most beneficial to developing your talents is a place of transition, like for instance a waterside. Such kind of environment should always allow you to see the horizon. For you, it is important to have a wide and unobstructed view. In other words, being in places where you can see what is distant and what is different, like on the seashore, at a lake or the edge of a forest with a fine panoramic view. It is those natural environments of transition from one landscape into another, which inspire you to be active and proactively shape your transformations - both in a literal and figurative sense of the word - and provide you with opportunities to be off to new pastures.

COGNITION TYPE *)

The Cognition Type describes the way one processes information and the activity mode in which one's life unfolds. The attached "animal name" is only supposed to convey an archetypical image and help differentiate whether a Cognitive Type tends to be survival-minded (predator) or experience-minded (resource animal).

LRRL, "Horse" universal mind - meditative activity

I like to indulge in my favourite activity as a form of relaxation and, at the same time, playfully and with changing focus observe everything around. I love to experiment, have an acute sense of perception and enjoy gaining experiences in order to gather wisdom. I maintain a regular and high level of physical activity that serves to protect and strengthen at the same time.

MIND AND APPROACH *)

My mind first observes everything around me with a shifting focus and then strategically processes this information. I prefer a wide choice of intellectual stimulation and variety. My approach can be referred to as playful and easily distracted, as I always detect new and interesting things that occupy my mind.

ACTIVITY MODE und RELATIONSHIP MODE

I benefit from a high degree of physical activity and always pursue strategic plans for my future. Such activity should be of a relaxing kind, so that I can always be present in the moment and live life free from pressure. I actively manage relationships and approach others strategically with my own topics, thus bringing them to deal with these topics.

Implementation (1), Capacity (14), Commitment (29), Structure (31), Overview (33)

APPEARANCE

A person's appearance describes the characteristic trait that can be perceived by others and which results from unfolding one's personality authentically.

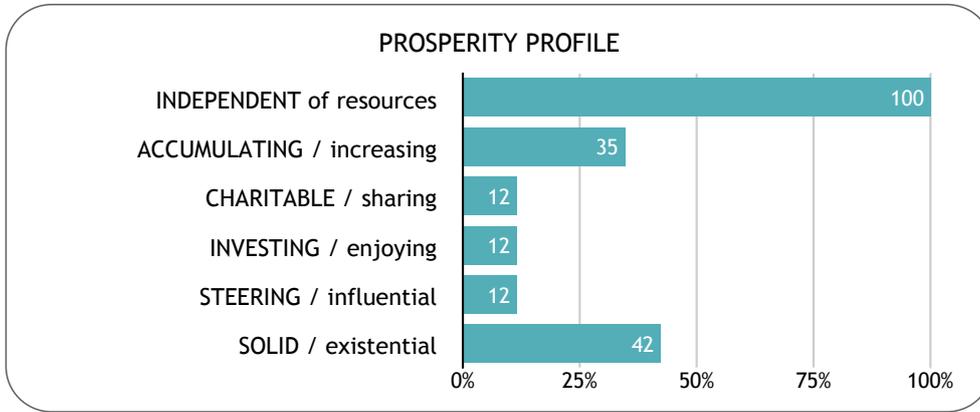

LEGEND

- EXEMPLARY / visionary** People who have this kind of charisma are authentic as they simply "do their thing", living up to their individuality. This may have an exemplary or even visionary effect on others.
- MOTIVATING / wise** This charisma is based on the wisdom of what is virtually feasible and the ability to motivate others to follow a promising path.
- EMPATHIC / open-hearted** This charisma will open the door to others. To approach one's neighbour with an open heart, perceiving and responding to their needs.
- EXPERIENCED / humorous** This charisma is always connected to a certain humorous way of "being above things". Because only those will fail, who do not get up after falling down.

PROSPERITY PROFILE

Material wealth, security and growth are among the basic needs of every man and woman, and rightly so. Still, they do not mean the same to everyone. Each person has their individual mode of how to master the material plane. This chart shows you how the different prosperity modes are defined in your life and how you can personally tap into the power of the material "flow".

DEVELOPMENT SEQUENCE

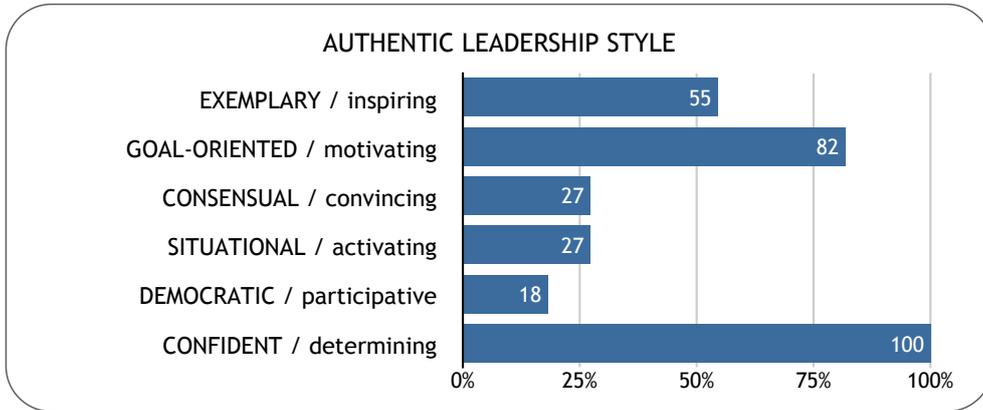

Talent	21.5	Dissemination
Cooperation	14.1	Autonomous
Appearance	31.5	Wise
Prosperity	1.6	Independent

LEGEND

- INDEPENDENT** A master in the art of living likes to be free of material attachments. In this case "being in the flow" and "living from hand to mouth" is equivalent to material prosperity. Here, the focus is not on the accumulation of reserves, but on the basic principle of life to have exactly what is needed at any given moment.
- ACCUMULATION** Here, prosperity means gathering resources and building reserves. It will help one sleep better. These resources also lead to influence because others know about them. The rate between accumulating resources and spending them should be well balanced in order to avoid the danger of becoming closefisted.
- CHARITY** In this case prosperity is created through generously sharing with people who have less than oneself. Sharing for charitable reasons will make sure that resources keep being replenished. A strong social streak is useful to see who actually needs and deserves to receive one's resources.
- INVESTMENT** It is conducive to prosperity when the available resources are wisely invested. This may also go beyond personal means (e.g. in the form of loans). In this mode one can also generate income through skilful investments and a certain readiness to assume risks, while at the same time heartily enjoying one's life.
- STEERING** Here prosperity is created by steering resources that are not one's own. And yet, this is also the way to meet one's own material needs. It is not about having large personal resources, but about having an influence on how other people use theirs.
- SOLIDITY** Prosperity is created if one's material existence is secured and well established, if there are reserves available, if there is a good overview of income and expenditure, and no major risks are being taken. In this mode, one will rest easier if there are only few liabilities and one only spends what one has earned.

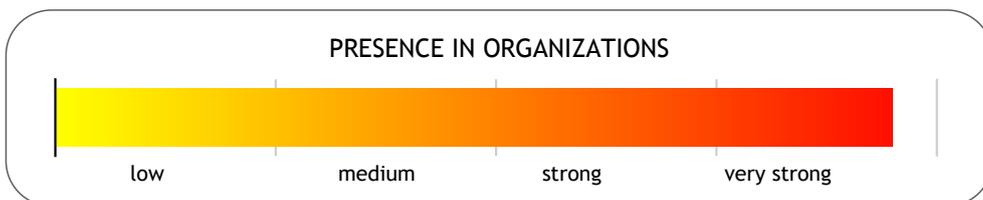

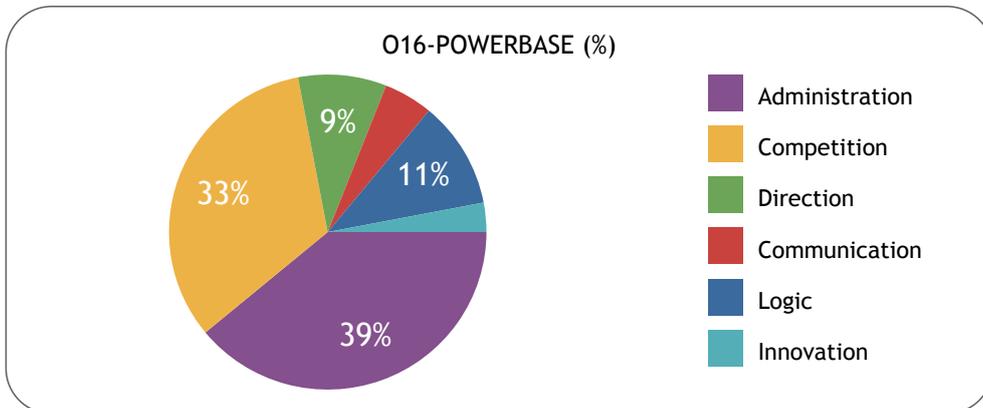

LEADERSHIP STYLE

Nobody can lead like you do! This chart displays your authentic behaviour in management and the leadership style that will make others follow and trust you. This leadership style does not only refer to an active role, but also applies to the way you would like to be led yourself.
